PREFACE

These Traffic Rules and Regulations have been adopted by the Traffic Commission pursuant to the provisions of the Charter of the City of Somerville empowering it to do so. The relevant section of the Charter is Article VII, Division 2, § 8, which states in part:

The traffic commission may adopt, alter or repeal rules and regulations, not inconsistent with General Law as modified by this Act, relative to vehicular and pedestrian traffic in the streets of the city, and to the movement, stopping, standing or parking of vehicles on, and their exclusion from, all or any streets, ways, highways, roads and parkways under the control of the city, including rules and regulations designating any way or part thereof under such control as a through way under and subject to the provisions of Section nine of Chapter eighty-nine of the General Laws. Any rule or regulation adopted under this clause, prohibiting the parking or standing of vehicles on the whole or any part or parts of one or more streets, ways, highways, roads or parkways under the control of the city, may provide that it shall not apply in such residential areas as shall be specified, and at such times as shall be prescribed, in such rule or regulation, to any motor vehicle registered under Chapter ninety of the General Laws as principally garaged in the city and owned or used by a person residing in such area, who, in the year in which such vehicle is parked or in the preceding December for such year, shall have given, by a writing executed in such form and detail as such rule or regulation shall prescribe, and filed with the chief of police, notice of intention to park in such area and shall display in a conspicuous place on such vehicle, while parked, such visible evidence of the giving of such notice as such rule or regulation shall prescribe; but neither the giving of such notice nor the issuance of visible evidence of the giving thereof shall be construed to assign any specific space to any person or vehicle. The traffic commission may, with the approval of the mayor and city council, prescribe a schedule of fines not exceeding fifteen dollars for each violation of parking regulations in the calendar year as authorized by Section twenty-C of Chapter ninety of the General Laws. All other violations of regulations adopted under the provisions of this Act, except as otherwise provided by statute, shall be subject to fines not to exceed fifty dollars for each offense as set forth in the regulations.

**CITY OF SOMERVILLE
TRAFFIC RULES & REGULATIONS**

The following vote was duly passed:

The Traffic Commission of the City of Somerville acting by virtue of the power given to it by Chapter 397 of the General Laws of Massachusetts Tercenary Edition (“General Laws”) and Article VII, Division 2, §8 of the Charter of the City of Somerville, and by virtue of any other power it hereto enabling, hereby adopts and makes the rules and orders for the regulation of carriages and vehicles used in the said City for regulating traffic upon the streets and highways of said City of Somerville; insofar as the said rules and orders or any of them are the same as the regulations, rules and orders now in force they shall be deemed to be a continuation thereof.

If any section, subsection, sentence, clause or phrase of these rules and order is for any reason unconstitutional, void for vagueness, illegal, or unenforceable, such decisions shall not affect the validity of the remaining portion of these rules and orders. The City of Somerville hereby declares that it would have passed these regulations and each section, subsection, sentence, clause or phrase thereof irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared unconstitutional.

ARTICLE I DEFINITIONS

Section 1-1 Definitions

For the purpose of these Regulations, the words and phrases used herein shall have the following meanings except in those instances where the context clearly indicates a different meaning.

Section 1-2 Bus Stop

An area in the roadway set aside for the boarding of or alighting from and the parking of buses.

Section 1-3 Crosswalk

That portion of a roadway ordinarily included within the prolongation or connection of curb lines and property lines at intersections, or at any portion of a roadway indicated for pedestrian crossing by lines on the road surface or by other marking or signs.

Section 1-4 Curb Marking, Official

That portion of a curbing, the painting of which has been authorized by the Traffic Commission of the City of Somerville (hereinafter Traffic Commission), and which has the written approval of the Massachusetts Highway Department.

Section 1-5 Emergency Vehicle

Vehicles of the Fire Department, police vehicles, ambulances and emergency vehicles of federal, state, and municipal departments or public service corporations when the latter are responding to an emergency.

Section 1-6 Funeral

Any procession of mourners properly identified as such accompanying the remains of a human body.

Section 1-7 Intersection

The area embraced within the extensions of the lateral curb lines or, if none, then the lateral boundary lines, of intersecting ways as defined in Section 1 of Chapter 90 of the General Laws, including divided ways.

The rules and regulations herein contained governing and restricting the movement of vehicles at and near intersecting ways shall apply at any place along any way at which drivers are to be controlled by traffic control signals whether or not such place is an intersection as herein defined.

Section 1-8 Lane

A longitudinal division of a roadway into a strip of sufficient width to accommodate the passage of a single line of vehicles.

Section 1-9 Live Parking

The stopping or standing of a vehicle, while the same is in direct charge of a driver, on a roadway otherwise than temporarily in obedience to traffic rules, regulations, signs, or signals.

Section 1-10 Loading (Service) Zone

An area in the roadway set aside for the accommodation of commercial and transient vehicular traffic.

Section 1-11 Officer

Any officer of the Somerville Police Department or any officer authorized to direct or regulate traffic or to make arrests for the violation of traffic regulations.

Section 1-12 Parking

The standing of a vehicle, whether occupied or not, otherwise than temporarily for the purpose of and while actually engaged in loading or unloading, or in obedience to an officer or traffic signs and signals, or while making emergency repairs or, if disabled, while arrangements are being made to move such vehicle.

Section 1-13 Parking Control Officer

Any officer authorized by the Traffic Commission to regulate parking or make citations for the violation of parking regulations.

Section 1-14 Parking Meter

Any mechanical device, not inconsistent with the provisions of this regulation, and placed or erected on any public way or municipal off-street parking area within the City of Somerville for the regulation of parking. Each parking meter installed shall indicate by proper legend the legal parking time established by this regulation and when operated shall at all times indicate the balance of legal parking time permitted and at the expiration of such period shall indicate illegal or overtime parking.

Section 1-15 Parking Meter Space

Any space within a parking meter zone, adjacent to a parking meter which is duly designated for the parking of a single vehicle by lines painted on the surface of the street or municipal off-street parking area adjacent to or adjoining each parking meter.

Section 1-16 Parking Meter Zone

Any street or portion thereof or municipal off-street parking area upon which parking of vehicles is permitted for a limited time subject to compliance with the further provisions of this regulation.

Section 1-17 Pedestrian

Any person afoot or riding on a conveyance moved by human muscular power, except bicycles or tricycles, as defined in Chapter 90, Section 18A of the General Laws.

Section 1-18 Person

Any individual, firm, partnership, association, corporation, or similar entity.

Section 1-19 Railroad Crossing

Any intersection of ways with a railroad right-of-way.

Section 1-20 Roadway

That portion of a street or highway between regularly established curb lines or that part, exclusive of shoulders, improved and intended to be used for vehicular traffic.

Section 1-21 Rotary Traffic

The counterclockwise operation of a vehicle around an object or structure.

Section 1-22 Safety Zone

Any area or space set aside within a roadway for the exclusive use of pedestrians and which has been indicated by signs, lines, or markings, having the written approval of the Massachusetts Highway Department.

Section 1-23 Sidewalk

That portion of a street or highway, other than a crosswalk, set aside for pedestrian travel.

Section 1-24 Street or Highway

The entire width between property lines of every way open to the public for purposes for travel.

Section 1-25 Street Marking, Official

Any painted line, legend, marking or marker of any description painted or placed upon any way which purports to direct and regulate traffic and which has been authorized by the Massachusetts Highway Department.

Section 1-26 Taxicab Stands

An area in the roadway in which certain taxicabs are authorized and required to park while waiting to be engaged.

Section 1-27 Traffic

Pedestrians, ridden animals, vehicles, streetcars or other conveyances either singly or together while using any street or highway for the purpose of travel.

Section 1-28 Traffic Control Area

Any area along any way, other than an intersecting way, at which drivers are to be controlled by traffic control signals.

Section 1-29 Traffic Control Signal

Any device using colored lights which conforms to the standards prescribed by the Manual on Uniform Traffic Control Devices, whether manually, electrically, or mechanically operated, by which traffic may be alternately directed to stop and to proceed.

Section 1-30 Traffic Island

Any area or space set aside within a roadway, which is not intended for use by vehicular traffic.

Section 1-31 Traffic Signs, Official

All signs, markings, and devices, other than signals, not inconsistent with these rules and orders, and which conform to the standards prescribed by the Manual on Uniform Traffic Control Devices and placed or erected by authority of a public body or official having jurisdiction for the purpose of guiding, directing, warning, or regulating traffic.

Section 1-32 Traffic Signals, Official

All signals, conforming to the standards as prescribed by the Manual on Uniform Traffic Control Devices, and placed or erected by authority of a public body having jurisdiction, for the purpose of directing or warning traffic.

Section 1-33 U-Turn

The turning of a vehicle by means of a continuous turn whereby the direction of such vehicle is reversed.

Section 1-34 Vehicle

Every device in, upon or by which any person or property is or may be transported or drawn upon a highway, including bicycles when the provisions of these rules are applicable to them, except other devices moved by human power or used exclusively upon stationary rails or tracks and devices which derive their power for operation from stationary overhead wires.

Section 1-35 Vehicle, Commercial

A vehicle displaying commercial vehicle license plates or used primarily for commercial purposes as declared on the application for insurance of said vehicle or any vehicle displaying, words, numbers, or symbols, that name or call attention to a business enterprise, except that of a vehicle manufacturer.

Section 1-36 Vehicle, Heavy Commercial

Any commercial vehicle of two and one half (2 1/2) tons capacity or over.

Section 1-37 Manual on Uniform Traffic Control Devices (MUTCD)

A publication of the Federal Highway Administration (FHWA) of the United States Department of Transportation, which is incorporated by reference in 23 CFR Part 655. The MUTCD promulgates standards for the installation of traffic control devices in the United States.

ARTICLE II

AUTHORITY AND DUTIES OF POLICE AND FIRE DEPARTMENT

Section 2-1 Traffic, Police to Direct

It shall be the duty of officers designated by the Chief of Police to enforce the provisions of these Regulations. Parking Control Officers designated by the Director of Traffic & Parking shall enforce the parking provisions only. Such officers are hereby authorized to direct all traffic either in person or by means of visible or audible signal in conformance with the provisions of these Regulations provided that in the event of a fire or other emergency, to expedite traffic or safeguard pedestrians, officers of the Police or Fire Departments may direct traffic, as conditions may require, notwithstanding the provisions of these Regulations.

Section 2-2 Close Street, Police May Temporarily

The Chief of Police is hereby authorized to close temporarily any street or highway in an impending or existing emergency, or for any lawful assemblage, demonstration, or procession. Article VIII of these Regulations, "Work zone Traffic Control", specifically regulates the scheduled closing of streets and highways.

Section 2-3 Close Street, Fire Department May Temporarily

The Chief Engineer of the Fire Department is hereby authorized to close temporarily any street or highway, or portion thereof, in case of a fire or other emergency response related to public safety as determined by the Emergency Management Director.

Section 2-4 Close Street, Other Departments May Temporarily

The Commissioner of Public Works and the Director of Traffic & Parking are hereby authorized to close temporarily any street or highway, or portion thereof, in case of the need for emergency repairs to the roadway.

Section 2-5 Parking, Police and Others May Prohibit Temporarily

The Chief of Police, the Commissioner of Public Works, and the Director of Traffic & Parking are hereby authorized to prohibit, temporarily, parking on any street or highway or part thereof in an impending or existing emergency or for a lawful assemblage, demonstration, or procession. Vehicles parked in places where parking is prohibited temporarily may be moved under the direction of a police officer in the grade of sergeant or above. Article VIII of these Regulations, "Temporary Traffic Control," specifically regulates the scheduled closing of streets and highways.

Section 2-6 Exemptions

The provisions of these Regulations shall not apply to police officers when engaged in the performance of public duties or to drivers of emergency vehicles (including the Emergency Management Director) while operating in an emergency and in performance of public duties when the nature of the work of any of these necessitates a departure from any part of these Regulations. These exemptions shall not, however, protect the driver of any vehicle from the consequences of a reckless disregard of the safety of others.

Section 2-7 Drivers' Obedience to Police Officers

Drivers of vehicles shall comply with any lawful order, signal, or direction of a police officer.

ARTICLE III TRAFFIC SIGNS, SIGNALS, MARKINGS, AND ZONES

Section 3-1 Bus Stops, Taxicab Stands and Service Zones, Location of

The location of all bus stops, taxicab stands and service zones shall be specified by the Traffic Commission and in the case of taxicab stands, the Chief of Police with the approval of the Traffic Commission shall designate who may use them as such.

The location of all bus stops is in accordance with a schedule of streets designated as Schedule A, hereto appended to which reference is made and which Schedule A is specifically incorporated in this section. Section 5-11 of these Regulations specifically regulates bus stops.

The location of all taxicab stands is in accordance with a schedule of streets designated as Schedule B, hereto appended to which reference is made and which Schedule B is specifically incorporated in this section. Section 5-12 of these Regulations specifically regulates taxicab stands.

The location of all service zones is in accordance with a schedule of streets designated as Schedule C, hereto appended to which reference is made and which Schedule C is specifically incorporated in this section. Section 5-2 of these Regulations specifically regulates service zones.

Section 3-2 Interference with Signs, Signals and Markings Prohibited

- (a) Any person who willfully defaces, injures, moves, obstructs, or interferes with any official traffic signs, signals, or marking shall be in violation of City Ordinance as prescribed in Chapter 9, Article IV. Offenses Against Property, § 9-47. Defacing Public Property.
- (b) Any sign that has been defaced by the affixing of adhesive stickers to the sign bearing the name of a person will be a violation of any provisions of these rules and regulations. If the identity of the person affixing the sticker cannot be determined, the person whose name such sticker bears, shall be held prima facie responsible for such violations.
- (c) Violations of the provisions of this section are subject to a penalty in accordance with the provisions of the City of Somerville Code of Ordinances.

Section 3-3 Obedience to Traffic Signs, Signals and Markings

No driver of any vehicle or of any street car shall disobey the instructions of any official traffic control signal, sign, marking, marker or legend unless otherwise directed by a police officer.

Section 3-4 Traffic Signs and Signals

- (a) The Traffic Director is hereby authorized, and as to those signs and signals required hereunder it shall be their duty, to place or maintain or cause to be placed and maintained all official traffic signs, signals, markings, and safety zones. All signs, markings, and safety zones shall conform to the standards as prescribed by the Manual on Uniform Traffic Control Devices.

(b) Sections 2-2 and 2-3 of Article II, Sections 5-1(k), (q) and (r), 5-2, 5-3, 5-5, 5-6, 5-10, 5-11, 5-12 and 5-20 of Article V relating to parking and Sections 7-10, 7-11, 7-12, 7-19 and 7-27 concerning turning movements and/or exclusion shall be effective only during such times as official signs are erected and maintained in each block designating the provisions of such sections and located so as to be easily visible to approaching drivers.
(1974-24)

(c) Sections relating to one-way streets shall be effective only during such time as a sufficient number of official signs are erected and maintained at each of the exits for each one-way street, so that at least one sign will be clearly visible for a distance of at least seventy-five (75) feet to drivers approaching such an exit.

(d) The enforcement of a regulatory sign, posted within a city block, classified by the Manual of Uniform Traffic Control Devices, as the Parking Series, shall be implemented 100 linear feet before the sign placement and 100 linear feet after the sign placement. In no case shall a restricted zone be longer than 200 linear feet without additional postings.
(93-13)

Section 3-5 Signs, Signals and Markings Prohibited, Display of Unauthorized

No person or corporation shall place, maintain, or display upon or in view of any street, any unofficial device, sign, signal, curb marking or street marking which purports to be or is an imitation of or resembles an official traffic device, sign, signal, curb marking or street marking or which attempts to direct the movement of traffic or which hides from view any official sign or signal, marking or device. The Chief of Police and Director of Traffic & Parking are hereby authorized to remove any such prohibited sign, signal, marking or device or cause it to be removed without notice.

Section 3-6 Authority to make experimental or temporary rules

For emergency or experimental purposes the Traffic Commission may make temporary rules regulating traffic and parking, or test under actual conditions, traffic signs, signals, markings, or other devices. No such emergency or experimental rule regulating traffic or parking shall remain in effect for a period of time longer than one hundred eighty (180) days.
(81-8)

Section 3-7 Authority to approve construction team requests

For temporary signage and/or traffic changes necessary due to GLX construction and bridge closures. These changes will be made on site and approval will be requested at the next scheduled Traffic Commission meeting. Approved requests will be listed in schedule U "Temporary Restrictions"

ARTICLE IV SPEED REGULATIONS

Section 4-1 General Prohibitions

No person operating a motor vehicle on any way shall run it at a rate of speed greater than is reasonable and proper, having regard to traffic and the use of the way and the safety of the public. Unless it is otherwise posted in accordance with the provisions of §18 of Chapter 90 of the General Laws and Section 4-2 below, it shall be prima facie evidence of a rate of speed greater than is reasonable and proper as aforesaid (1.) if a motor vehicle is operated a rate of speed in excess of thirty miles per hour for a distance of one eighth of a mile, or (2.) within a school zone established under the provisions of § 2 of Chapter 85 of the General Laws at a rate of speed exceeding twenty miles per hour.

Section 4-2 Specific Prohibitions

No person shall operate a motor vehicle at a speed in excess of a speed limit posted in accordance with the provisions of Chapter 90, §18 of the General Laws.

The Traffic Commission, having adopted special speed regulations in accordance with the provisions of Chapter 90, §18 of the General Laws hereby promulgates said regulations. The location of all speed zones is in accordance with a schedule of streets designated as Schedule Q, hereto appended to which reference is made and which Schedule Q is specifically incorporated in this section.

Section 4-3 Speed Safety Zones

The Speed Limit within 300ft of the designated areas designated in Schedule S shall be 20 mph.

ARTICLE V STOPPING, STANDING, PARKING

Section 5-1 General Prohibitions

No driver shall allow, permit or suffer any vehicle registered in their name to stand or park in any street, way, highway, road or parkway under the control of the City of Somerville in violation of any of the Traffic Regulations adopted by the Traffic Commission and in particular in any of the following places except when necessary to avoid conflict with other traffic or in compliance with the direction of a police officer or traffic sign or signal.

- (a) Within any intersection.
- (b) Upon any sidewalk.
- (c) Upon or within 20ft of any crosswalk.
- (d) Upon any roadway in a rural or sparsely settled district.
- (e) Upon a roadway where parking is permitted unless both wheels on the right side of the vehicle are within twelve (12) inches of the curb or edge of the roadway, except upon those streets which are designated as one-way streets. On such one-way streets vehicles shall be parked in the direction in which said vehicle is moving and with both wheels within twelve (12) inches of the curb.
- (f) This is not to apply to streets or parts of streets where angle parking is required by these regulations.
- (g) Upon any roadway where the parking of a vehicle will not leave a clear and unobstructed lane at least twelve (12) feet wide for passing traffic.
- (h) Upon a street or highway within ten (10) feet of a fire hydrant.
- (i) In front of any driveway, including 2 feet in either direction from the driveway
- (j) Upon any street or highway within twenty (20) feet of an intersecting way, except alleys.
- (k) Within fifteen (15) feet of the wall of a fire station or directly across the street from such fire station provided signs are erected acquainting the driver of such restriction.
- (l) Alongside or opposite any street excavation or obstruction when such stopping, standing or parking would obstruct traffic.
- (m) Within twenty-five (25) feet of the nearest rail of a railroad crossing when there are no gates at such crossing, or otherwise within five (5) feet from the gate.
- (n) On a bridge and the approach thereto.

(o) On the roadway side of any vehicle stopped or parked at the edge or curb of a roadway.

(p) On both sides of any street, alley or private way, when the width does not exceed eighteen (18) feet or upon one side of a street, alley or private way, when the width of the roadway does not exceed twenty-six (26) feet.

(q) When official signs prohibiting parking are erected upon narrow streets authorized herein, no person shall park upon any such street in violation of any such sign.
(81-1)

(r) Upon any street or part thereof where signs have been erected by order of the Traffic Director for the purpose of facilitating the cleaning of streets, no person shall stand or park a vehicle on the days and during the hours indicated.
(1977-1)

(s) It shall be unlawful for any person to park a vehicle at a metered space in any City owned parking lot unless parked with the front of the vehicle facing the parking meter. This will be referred to as “Head On” parking. Violations of the provisions of this section shall be enforced by the City of Somerville in accordance with the provisions of the General Laws, Chapter 90 section 20A and shall be fined as a “Wrong Direction” violation.
(2001-02)

(t) The standing or parking of any commercial vehicle between the hours of 12:00am and 6:00am on any day on any part of any street, way, highway, road, or parkway under the control of the City of Somerville is prohibited. Article VII Sec 7-27 (c).

(u) Upon any way for a period of time exceeding 24 consecutive hours, whether the vehicle is disabled or not and preparations are being made by the owner or operator for its removal. Article X Sec 10-5 (i).

(v) With an expired or invalid registration plate. Upon any Bicycle Lane

(w) With an expired or invalid inspection sticker

(x) Upon any Bicycle Lane

Section 5-2 Loading/Service Zones

No person shall park a vehicle upon any street in any service zone for a period of time longer than thirty minutes and except while actually engaged in loading or unloading, except that passenger vehicles may stand for not more than five (5) minutes, continuously, for the receiving or discharging of passengers, except for loading zones in and around the Davis Square area which are for “Delivery Vehicles Only”, and commercial vehicles may stand for not more than twenty (20) minutes continuously for the loading or unloading of materials.

The location of all service zones is in accordance with a schedule of streets designated as Schedule C, hereto appended to which reference is made and which Schedule C is specifically incorporated in this section.

Section 5-3 Diagonal Parking

(a) The Traffic Commission shall determine the street upon which diagonal parking shall be permitted and shall cause said streets to be designated by sign and the surfaces thereof to be marked as directed by the Traffic Director.

(b) Where such diagonal parking is permitted, vehicles shall be parked with one wheel within twelve (12) inches of the curb and at the angle to the curb indicated by official marks and signs. The vehicle shall be parked so that all four wheels of the vehicle shall be placed wholly within the area indicated for parking, and headed to the curb.

(List of areas may be passed by Regulation later.)

Section 5-4 Parking Vehicle for Sale Prohibited

It shall be unlawful for any person to park upon a street or highway any vehicle displayed for sale.

Section 5-5 Parking Location and Prohibitions

Parking is prohibited, restricted or limited as to time, space and streets in accordance with a schedule of streets designated as Schedule D, hereto appended to which reference is made and which Schedule D is specifically incorporated in this section. No operator shall park a vehicle in the designated prohibited locations or in the restricted locations for a period longer than is designated in Schedule D, except as otherwise provided in this Schedule, or where there is a time limit as to parking. No parking anytime on McGrath Highway, both sides, from Washington St. to Somerville Av. (beginning on September 1, 2015 for the duration of the construction associated with the McCarthy Overpass Project).

Section 5-6 Permit Parking Location and Prohibitions

Parking is prohibited, restricted, or limited as to time, space and streets without a permit issued by the Traffic Commission in accordance with a schedule of streets designated as Schedule E, hereto appended to which reference is made and which Schedule E is specifically incorporated in this section. No operator shall park a vehicle in the designated prohibited locations or in the restricted locations for a period longer than is designated in Schedule E, without a permit issued by the Traffic Commission except as otherwise provided in this Schedule.

Section 5-7 Residential Permit Parking Program Approval Procedures

(a) In order for a street in the City of Somerville to become a Residential Permit Parking Program Street, 51% or more of the residents must approve/support a petition for the request. The petition must be submitted on Department of Traffic & Parking Form 1 (T&P Form 1, included in Appendix B) by the residents in accordance with the instructions on the form.

(b) Once a petition is submitted meeting the requirements stated on the form, the Department of Traffic & Parking investigates the number of residential units on the petitioned street in order to verify signatures. In calculating the percentage of the residents who approve of the petition, the following criteria apply:

1. One signature per household.
2. Only legal residents of legal units may sign the petition.
3. Sublet units will not be counted (i.e., house 37A and 37B shall be considered one (1) household #37)
4. Corner lots with addresses on an intersecting street will be included in the calculation and may sign the petition.

(c) The Traffic Commission, by a majority vote, approves the petition if the requisite number of signatures are submitted on the petition and verified by the Department of Traffic & Parking.

(d) The Department of Traffic & Parking advertises the proposed traffic regulations for three weeks in the newspaper.

(e) After advertising, signs are installed for enforcement.

Section 5-7 Rescinded in its entirety 2009-20

Section 5-8 Use of Guest Parking Permits

Guest parking permits shall be used only by guests of a Somerville resident on the street for which the permit was issued or on an abutting street (within walking distance). The use of a guest parking permit by a resident of Somerville on a vehicle in their custody is prohibited and will result in the revocation of all guest permits held by such a resident and all other residents of their household for one (1) year or until the expiration date of the subject guest permits, at the discretion of the Traffic Commission. For the purposes of this regulation, a vehicle is in the custody of a resident if such resident is either the registered owner of the vehicle or is the authorized operator of the vehicle for more than five (5) days within any thirty (30) day period.

A vehicle parked in a permit parking area displaying one or more guest parking permits is in compliance with Section 5-6 for a period not to exceed two days each week, from Monday through Saturday unless a time extension is granted by the Traffic Commission.

The Visitor Parking Permit may not be transferred by the resident, remains the property of the City of Somerville, and must be surrendered upon request. Use of the Visitor Permit acknowledges agreement to comply with applicable Traffic & Parking regulations relative to the use of the Visitor Parking Permit.
(84-24), (90-10), (97-22).

Section 5-9.1 Parking Meter Locations and Regulations

Parking is restricted or limited as to time, space, streets and municipal off-street parking area on the streets and municipal off-street parking areas designated as Schedule F hereto appended to which reference is made and which Schedule F is specifically incorporated in this Section. No person shall park a vehicle for a period of time longer than two hours or as

hereinafter indicated, between the hours of 8:00 AM and 8:00 PM on any streets hereinafter designated in this section or for a period of time longer than three hours or as hereinafter indicated, between the hours of 8:00 AM and 10:00 PM in all municipal parking lots in Davis Square and Magoun Square. This restriction shall not apply on Sundays or during the hours of legal holidays during which business establishments are required by law to remain closed.

In accordance with the foregoing, parking meter zones are hereby established in the streets, parts of streets or municipal off-street parking areas listed in Schedule F, hereto appended to which reference is made and which Schedule F is specifically incorporated in this section.

(1974-23, 1974-24), (81-10, 81-11), (82-3), (83-6), (84-9), (92-14), (93-15), (94-17, 94-21), (95-1, 95-15, 95-21, 95-25), (96-87), (97-90), (98-14, 98-42), (99-13)

Section 5-9.2

The Traffic Director is hereby empowered, with the approval of the Traffic Commission and the Mayor, to contract for the acquisition and installation of parking meters provided for by this Regulation and to maintain said meters in good workable condition.

Section 5-9.3

The Director of Traffic & Parking is hereby authorized and directed to install parking meters within the areas described in this Regulation or cause the same to be so installed. The meters shall be placed at intervals of not less than 20 feet apart, except that beginning and ending spaces may be 18 feet, and not less than 12 inches nor more than 24 inches from the face of the curb adjacent to individual meter spaces. Meters shall be so constructed as to display a signal showing legal parking upon the deposit therein of the proper coin or coins of the United States or other approved transfer of funds as indicated by instructions on said meters and for such period of time as is or shall be indicated by Regulation or meter legend. Said signal shall remain in evidence until expiration of the parking period designated at which time a dropping of a signal automatically or some other mechanical operation shall indicate expiration of said parking period.

Section 5-9.4

The Traffic Director is hereby authorized and directed to establish parking meter spaces, in such parking meter zones, as are herein specified, or as may be hereafter fixed by Regulation.

Section 5-9.5

Whenever any vehicle shall be parked adjacent to a parking meter, the owner or operator of said vehicle shall park within the space designated by pavement marking lines and, upon entering such space shall immediately deposit in said meter the required coin or coins of the United States or other approved payment for the maximum legal parking period as indicated or shown on the meter and if so required set the mechanism in motion.

The fee for parking meters shall be twenty-five (25) cents for 10 minutes/\$1.50 per hour.

It shall be unlawful for any person to deposit or cause to be deposited in a parking meter any coin for the purpose of permitting the vehicle of which he is in charge to remain in a parking space beyond the maximum period of time allowed in a particular zone.

It shall be unlawful for any person to park a vehicle within a parking meter space unless such vehicle is wholly within the painted lines adjacent to such meter.

It shall be unlawful for any unauthorized person to open, tamper with, break, injure or destroy any parking meter or to deposit or cause to be deposited in such meter any slugs, device, or metallic substance or any other substitute for the coin or coins required. A meter is considered broken when none of the forms of payments are being accepted at the meter.

A vehicle shall be allowed to park at a broken meter up to the maximum amount of time otherwise permitted as such meter.

Section 5-9.6

Operators of commercial vehicles may park in a metered space without depositing a coin for a period not to exceed 30 minutes for purposes of loading or unloading. Parking in excess of this time limit without depositing the proper coin or coins shall be deemed a violation of the provisions of this Regulation.

Section 5-9.7

The Traffic Director is hereby designated as the person authorized to maintain parking meters installed in accordance with this Regulation and to collect therefrom or cause to be collected all monies deposited in said meters. Such monies shall be deposited forthwith by the Traffic Director with the City Treasurer, and the City Treasurer shall deposit such monies in a separate account to be known as the City of Somerville Parking Meter Account.

Section 5-9.8

All fees received by the Treasurer of the City of Somerville from the operation and use of parking meters shall be used by said Treasurer as authorized by Chapter 442, Acts of the Legislature, 1947, and any and all other provisions in the General Laws, and particularly, as mentioned in §24R, in accordance with requirements issued by the Director of Accounts of the Commonwealth.

Section 5-9.9

It shall be the duty of the Traffic Director and the Chief of Police of the City of Somerville, and all officers of the Police Department to enforce the provisions of this section.

Section 5-9.10

Nothing in this Parking Meter Regulation shall be construed to prohibit the Traffic Commission from making provisions for bus stops, taxicab stands, service zones, as authorized by statutes or Regulations on any street or portion thereof which has been or may hereafter be designated herein as a parking meter zone.

Section 5-9.11

Any person who violates any parking provision of this Regulation shall be subject to the penalties provided by Chapter 90, §20A of the General Laws and any other violation shall be punishable as may be provided by law.

Section 5-9.12

No driver, while operating any vehicle owned and bearing indicia of ownership by the City of Somerville, State or Federal governments, shall be required to deposit any fee in a parking meter as provided in this section.

Section 5-10 Prohibited at Safety Zones

No driver shall park a vehicle within a safety zone which has been properly posted and designated by the Traffic Commission. Safety zones, for the purposes of this regulation, shall include fire lanes and crosswalks.

(a) It shall be unlawful to obstruct or park any vehicle in any fire lane, such fire lane to be designated by the Traffic Commission upon the recommendation of the Chief Engineer of the Fire Department (or their designee), and marked as such. The Traffic Commission shall designate specific areas as fire lanes when it determines that the safety and welfare of the general public will best be served by the implementation of a fire lane.

(b) On public ways within the jurisdiction of the Traffic Commission, fire lanes shall be established after due consideration of the effects of such fire lane on public safety and welfare as well as parking supply and engineering judgment. The location of all safety zones is in accordance with a schedule of streets designated as Schedule G, hereto appended to which reference is made and which Schedule G is specifically incorporated in this section.

(c) It shall be unlawful to obstruct or block a private way with a motor vehicle or other means so as to prevent access by fire department apparatus or equipment to any building.

(d) The Traffic Commission hereby establishes fire lanes on private property in any of the following places except when necessary to avoid conflict with other traffic or in compliance with the direction of a police officer or traffic sign or signal. The building owner of record shall provide, install, and maintain signs and striping to designate said fire lanes in conformance with the specifications of these regulations. Such signage and striping shall meet with the approval of the Traffic Director.

1. Where there is a sidewalk and curbing in front of a building, the area within twelve feet from the curbing along the building front of a shopping center, hotel, theatre, school, church, hospital, or assembly hall.
2. Where there are no sidewalks with curbing in front of a building, the area within eighteen feet from the building front of a shopping center, hotel, theatre, school, church, hospital, or assembly hall.

(e) It shall be unlawful to park a motor vehicle under the cantilever of fire escapes or in such a manner as to block exits or passageways to the street or sidewalks, nor to interfere with the means of egress from buildings.

(f) If any vehicle is found in violation of any provisions of these rules and regulations and the identity of the driver cannot be determined, the owner or the person in whose name such vehicle is registered, shall be held prima facie responsible for such violations.

(g) Violations of the provisions of this section shall be enforced by the City of Somerville in accordance with the provisions of the General Laws, Chapter 90, §20A, except where uniformed security officers are employed by the owners of buildings on private property, in which case said security officers may be appointed parking control officers for the purpose of issuing violations in accordance with the provisions of the General Laws, Chapter 147, §10F and charged with enforcement of this regulation.

(Traffic Ordinance 1982-16, amended by Traffic Regulation 2001-01)

Section 5-11 Bus Stops

(a) No person shall stop, stand, or park a vehicle, other than a bus under the control of the Massachusetts Bay Transportation Authority, within a Massachusetts Bay Transportation Authority bus stop, when such stop is designated by signs bearing the legend, "Bus Stop, No Stopping"

(b) No person shall park a bus upon any street within a business district at any place other than a bus stop when a nearby bus stop is available for use.

(c) The location of all bus stops is in accordance with a schedule of streets designated as Schedule A, hereto appended to which reference is made and which Schedule A is specifically incorporated in this section.

Section 5-12 Taxicab Stands

(a) No person shall park a vehicle other than a taxicab upon any street within a business district in any taxicab stand.

(b) No person shall park a taxicab upon any street within a business district at any place other than the taxicab stand or stands designated for the use of their taxicab or taxicabs.

(c) The location of all taxicab stands is in accordance with a schedule of streets designated as Schedule B, hereto appended to which reference is made and which Schedule B is specifically incorporated in this section.

Section 5-13 No stopping, standing or parking near hazardous or congested places

The Traffic Commission is hereby authorized to determine and designate by proper signs, places not exceeding one hundred (100) feet in length in which the stopping, standing or parking of vehicles would create an especially hazardous condition or would cause unusual delay to traffic.

When official signs are erected at hazardous or congested places as authorized herein, a copy of which is placed on file in the office of the Traffic Director, no person shall stop, stand or park a vehicle in any such designated area.

(81-3)

Section 5-14 Commercial vehicles may back to curb or edge of roadway

Subject to the provisions of Sections 12 through 17 commercial vehicles may be parked with both rear wheels to the curb or edge of the roadway while loading or unloading materials, provided such parking leaves a clear and unobstructed lane at least ten (10) feet wide for the passage of traffic.

Section 5-15 Residential Accessible Parking Program – Approval Procedure

(a) The City of Somerville Traffic Commission shall have the authority to approve the installation of Accessible Permit Parking spaces on various city streets. The approval program will be referred to as the Residential Accessible Parking Program (“the Program”).

(b) The purpose of the Program is to facilitate parking for persons with disabilities in close proximity to their home. The Traffic Commission undertakes this Program voluntarily and makes no guarantee that it will continue in perpetuity.

(c) The Traffic Commission will consider requests from residents with disabilities of the City of Somerville to designate an accessible parking space on their street. If approved, the space will be designated through signage within a reasonable proximity to the applicant’s home. However, the applicant will be advised that the space is not for their exclusive use and any person with a disability plate or placard may use this space in accordance with applicable laws and regulations governing parking in accessible spaces.

(d) The approval of the application will be subject to the following limitations and requirements:

1. Proof of valid Massachusetts Driver’s License.
2. The applicant must have been issued a disability plate or disability placard by the Commonwealth of Massachusetts Registry of Motor Vehicles or other duly authorized agency acting under the authority of the Commonwealth.
3. The applicant must be the registered owner of the vehicle to be parked in the space. In addition, if the applicant is applying for an accessible space with a placard, they must be the individual to whom the placard was issued. The applicant must also demonstrate residency at the location for which accessible parking is requested. The Traffic Commission may consider applications for members of a person with disability’s household, such as the parents of children with disabilities or children of senior adults with disabilities.
4. The applicant must complete an application from the City of Somerville and submit it to the Parking Department for review and recommendations to the Traffic Commission. (T & P Form 2A, included in Appendix B)
5. The application must include written verification on Parking Form 2D (included in Appendix B) from a licensed health care provider that the applicant’s disability limits ambulatory movement. The application must also include verification from the applicant or the applicant’s landlord (if applicable) regarding the availability of appropriate off-street parking.

6. An engineering study will be performed at the direction of the City Traffic Engineer to evaluate the feasibility of designating an accessible parking space in accordance with the applicant's request. The review will consider the most appropriate location for the installation, and safety concerns which might arise from the installation, impacts on traffic operations, and the number of existing accessible parking spaces in the 2000 foot grid as shown on the Official City of Somerville Map. Only after an engineering study determines that the installation can proceed will the Traffic Commission act favorably on an application.
 7. The Traffic Commission will not approve the installation of accessible parking spaces when the number of accessible parking spaces will exceed two percent (2%) of the available parking inventory in each two thousand square foot grid.
 8. The Traffic Commission will consider correspondence and recommendations from the City of Somerville Commission for Persons with Disabilities and/or their designee.
- (e) The Traffic Commission will not consider an application until a report is received from the City Traffic Engineer and until an application is complete.
 - (f) Factors which may result in unfavorable action by the Traffic Commission include, but are not limited to: unsafe conditions; existence of adequate off-street parking; false application; inadequate documentation from applicant; unreasonable impacts to neighbors and/or traffic operations. This list of possible factors for disapproval is not intended to limit the Commission's ability to disapprove an application, and reasons for denial may include reasons not listed above.
 - (g) If any individual applicant fails to meet the above stated criteria, they may request a waiver in writing setting forth all of the reasons why they believe that a waiver should be granted. The Traffic Commission may request additional information or grant or deny the waiver request. The Traffic Commission shall only grant a waiver when it finds extraordinary circumstances. The Traffic Commission may not grant a waiver when it determines that public safety will be adversely affected.
 - (h) If the Traffic Commission acts favorably on an application, a new traffic regulation for the designated accessible parking space will be adopted and advertised in accordance with applicable local and state requirements.
 - (i) Once the advertising period for a new traffic regulation has passed, the designated accessible parking space will be installed and enforced by the Parking Department and any other agency having jurisdiction to enforce such regulation.
 - (j) The Traffic Commission, through the Parking Department, will periodically review the continued need for a designated accessible parking space. Every two years, the applicant will be required to verify that they continue to reside at the location where the accessible parking space has been designated. In addition, they will be required to verify that the conditions that led to the Traffic Commission's previous approval of a designated space are still in existence. For applicants with disability placards, the applicant must submit a photocopy of a valid placard issued by the Registry of Motor Vehicles. A new health care provider's verification may be required if the condition which led to approval was not a permanent condition. Applicants will be notified by the Parking Department when renewal is required and will be advised as to what documentation must be submitted for renewal.
 - (k) In the case of renewal applications, if the Parking Department finds that the designated space is still required, then no action is required on the part of the Traffic Commission and the designated space will remain. If the Parking Department determines that a space is no longer

required, the City Traffic Engineer will recommend that the Traffic Commission strike the previously adopted traffic regulation which corresponds with the designated accessible parking space. If the Traffic Commission votes to strike the traffic regulation pertaining to a designated accessible parking space, the Parking Department will remove the traffic control devices designating the space as soon as the advertising period has elapsed.

- (l) In the event of the applicant's death, or if the applicant relocates from the residence where the designated accessible parking space has been provided, the traffic regulation will automatically expire. In such a case, the Parking Department will remove the traffic control devices designating the parking space as soon as they are notified of the change in status.
- (m) The Director of Parking, with consultation of the ADA Coordinator, has been designated with the authority to make reasonable modifications to the residential accessible parking program under the Americans with Disabilities Act

Section 5-16 Parking for Persons with Disabilities in Parking Lots

(a) Any person that has lawful control of a public or private way or of improved or enclosed property used as off-street parking areas for businesses, shopping malls, theaters, auditoriums, sporting or recreational facilities, cultural centers, residential dwellings, or for any other place where the public has a right of access as invitees or licensees, shall reserve parking spaces in said off-street parking areas for any vehicle owned and operated by a veteran with disability or person with disability whose vehicle bears the distinguishing license plate authorized by Chapter 90, §2 of the General Laws, according to the following formula:

(b) If the number of parking spaces in any such area is more than fifteen but not more than twenty-five, one parking space; more than twenty-five but not more than forty, five percent of such spaces but not less than two; more than forty but not more than one hundred, four per cent of such spaces but not less than three; more than one hundred but not more than two hundred, three per cent of such spaces but not less than four; more than two hundred but not more than five hundred, two per cent of such spaces but not less than six; more than five hundred but not more than one thousand, one and one-half per cent of such spaces but not less than ten; more than one thousand but not more than two thousand, one per cent of such spaces but not less than fifteen; more than two thousand but less than five thousand, three-fourths of one per cent of such spaces but not less than twenty; and more than five thousand, one-half of one percent of such spaces but not less than thirty.

(c) Parking spaces designated as reserved under the provisions of paragraph (a) shall be identified by the use of above grade signs with white lettering against a blue background and shall bear the words "Reserved Parking: Special Plate Required. Unauthorized Vehicles May be Removed at Owner's Expense"; shall be as near as possible to a building entrance or walkway; shall be adjacent to curb ramps or other unobstructed methods permitting sidewalk access to a person with disability; and shall be twelve feet wide or two eight-foot wide areas with four feet of cross hatch between them.

(d) The leaving of unauthorized vehicles within parking spaces designated for use by veterans with disabilities or persons with disabilities as authorized by paragraph (a) or in such a

manner as to obstruct a curb ramp designed for use by persons with disabilities as a means of egress to a street or public way is hereby prohibited.

(e) Section C of this regulation may be enforceable by the City of Somerville under the Provisions of Chapter 90, §20A of the General Laws.

(f) The person who has lawful control of such way or property is authorized to tow or otherwise remove vehicles parked in violation of this regulation consistent with Chapter 90 §20D of the General Laws.

Section 5-17 Parking and standing of authorized emergency vehicles.

The provisions of these rules and regulations governing the parking and standing of vehicles shall not apply to authorized emergency vehicles, as herein defined, while the same are being used in the performance of a public duty.

ARTICLE VI ONE WAY STREETS

Section 6-1 One-way streets

The streets or portions thereof designated in Schedule I hereto appended and specifically incorporated in this section are declared to be one-way streets and all vehicular traffic shall move on those streets or portions thereof in the directions designated in said Schedule I.

Section 6-2 Rotary Traffic

Within the area set forth below vehicular traffic shall move only in a rotary counter-clockwise direction except when otherwise directed by an officer.

Section 6-3 Do not enter regulations

No person operating a vehicle shall enter the streets listed in Schedule K to proceed in the indicated direction from the indicated intersecting streets at the indicated times. Official traffic signs shall be erected and maintained on the streets where entry is restricted facing the traffic which would enter in the restricted direction.

This Section applies to the streets listed in Schedule K, hereto appended to which reference is made and which Schedule K is specifically incorporated in this section.

**ARTICLE VII
OPERATION OF VEHICLES
(CHAPTER 89 OF THE GENERAL LAWS GOVERNS)**

Section 7-1 Overtake Only When There is a Space Ahead

The driver of a vehicle shall not overtake and pass a vehicle proceeding in the same direction unless there is sufficient clear space ahead on the right side of the roadway except that on a one-way street drivers shall not be restricted to the use of the right half of the roadway, but may have access to the entire width thereof, to permit the overtaking to be completed without impeding the safe operation of any vehicle ahead.

Section 7-2 Driver to Give Way to Overtaking Vehicle

The driver of a vehicle when about to be overtaken and passed by another vehicle approaching from the rear shall give way to the right in favor of the overtaking vehicle on suitable and visible signal being given by the driver of the overtaking vehicle, and shall not increase the speed of their vehicle until completely passed by the overtaking vehicle.

Section 7-3 Obstructing Traffic

(a) No person shall drive in such a manner as to obstruct unnecessarily the normal movement of traffic on any street or highway. Officers are hereby authorized to require any driver who fails to comply with this section to drive to the side of the roadway and wait until such traffic as has been delayed has passed.

(b) No driver shall enter an intersection or a marked crosswalk unless there is sufficient space on the other side of the intersection or crosswalk and on the right half of the roadway to accommodate the vehicle he is operating without obstructing the passage of other vehicles or pedestrians notwithstanding any traffic control signal indication to proceed, except that on a one-way street drivers shall not be restricted to the use of the right half of the roadway, but may have access to the entire width thereof, beyond the intersection or crosswalk, if such is available.

(c) No operator shall exchange the streetcar, trackless trolley or motor coach under their charge with any other operator while upon any public street, except when said streetcar, trackless trolley or motor coach is disabled, or when some emergency arises over which the operator of said street car, trackless trolley or motor coach has no control.

Section 7-4 Drive within marked lanes

When any roadway has been divided into lanes, a driver of a vehicle shall drive so as to be entirely within a single lane and shall not move from the lane in which he is driving until he has first ascertained if such movement can be made with safety.

Section 7-5 Drive on right side of street

Except on one-way streets, or where signs have been erected to the contrary, or when overtaking and passing another vehicle, the driver of a vehicle shall drive the same on the right half of the roadway and shall drive a slow-moving vehicle as closely as possible to the right-hand edge or curb of the roadway unless it is impracticable to travel on such side of street.

Section 7-6 Overtaking other vehicles

A driver of a vehicle shall not overtake and pass any other vehicle proceeding in the same direction at any intersection of streets, except that this provision shall not apply at intersections where traffic is controlled by official traffic control signals or by police officers.

Section 7-7 Following Too Closely

The driver of a vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard to the speed of such vehicle and the traffic upon and condition of the street or highway.

Section 7-8 Clinging to Moving Vehicles

It shall be unlawful for any person traveling upon a bicycle, motorcycle, coaster, sled, roller skates, or any toy vehicle to cling to, or attach themselves or their vehicle to any moving vehicle or streetcar upon any roadway.

Section 7-9 Care in starting, stopping, turning, or backing

The driver of any vehicle before starting, stopping, turning from a direct line or backing shall first see that such movement can be made with safety. If such movement cannot be made in safety or if it interferes unduly with the normal movement of other traffic, said driver shall wait for a more favorable opportunity to make such movement.

If the operation of another vehicle should be affected by a stopping or turning movement, the driver of such other vehicle shall be given a plainly visible signal as required by state law.

Section 7-10 Prohibited Turning Movements

Drivers shall not make turns on the streets listed in Schedule M, hereto appended to which reference is made and which Schedule M is specifically incorporated in this section.

Section 7-11 Mandatory Turning Movements

Drivers shall proceed only by making a turn at the locations listed in Schedule N, hereto appended to which reference is made and which Schedule N is specifically incorporated in this section.

Section 7-12 U-Turns Prohibited

No operator shall back or turn a vehicle so as to proceed in the direction opposite to that in which said vehicle is headed or traveling on the streets listed in Schedule L, hereto appended to which reference is made and which Schedule L is specifically incorporated in this section.

Section 7-13 Backing around corners or into intersections prohibited

No driver of any vehicle shall back such vehicle around a corner at an intersection, or into an intersection of streets.

Section 7-14 Dangerous Vehicles

No person shall operate any vehicle in such condition or so constructed or so loaded as to be likely to cause delay in traffic, or accident or injury to persons or property.

Section 7-15 Persons propelling pushcarts or riding bicycles or animals to obey traffic regulations

Every person propelling any pushcart or riding a bicycle or an animal on a public street shall be subject to the provisions of these regulations applicable to the driver of any vehicle.

Section 7-16 Emerging from a private driveway

The operator of a vehicle emerging from an alley, driveway or a garage shall stop such vehicle immediately prior to driving on to a sidewalk or on to the sidewalk area extending across any alleyway or driveway before proceeding.

Section 7-17 Unlawful Riding

It shall be unlawful for any reason to ride on any portion of a vehicle not designated or intended for the use of passengers when the vehicle is in motion. This provision shall not apply to any employee engaged in the necessary discharge of a duty or within truck bodies in space intended for merchandise.

It shall be unlawful for any person to stand in the roadway for the purpose of soliciting a ride from the operator of any motor vehicle.

Section 7-18 Obedience to traffic control signals

Colors and arrow indications in traffic control signals shall have the commands ascribed to them in this section, and no other meanings, and every driver of a vehicle, railway car or other conveyance shall comply therewith except when otherwise directed by an officer or by a lawful traffic regulating sign other than a "stop" sign, signal, or device or except as provided in (the section dealing with funerals in Section 7).

In no case shall a driver enter or proceed through an intersection without due regard for the safety of other persons within the intersection, regardless of what indications may be given by traffic control signals.

- (a) Green indications shall have the following meanings:
 - 1. Drivers facing a CIRCULAR GREEN signal may proceed through or turn right or left unless a sign at such place prohibits either such turn. But drivers turning right or left shall yield the right of way other vehicles, and to pedestrians lawfully within the intersection or an adjacent crosswalk, at the time such signal was exhibited.
 - 2. Drivers facing a GREEN ARROW, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow, or such other movements as is permitted by other indications shown at the same time. Such drivers shall yield the right of way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.
- (b) Steady yellow indications shall have the following meanings:
 - 1. Drivers facing a steady CIRCULAR YELLOW or YELLOW ARROW signal are thereby warned that the related green movement is being terminated or that a red indication will be exhibited immediately thereafter when drivers shall not enter the intersection.

- (c) Steady red indications shall have the following meanings:
1. Drivers, facing a steady CIRCULAR RED signal and NO TURN ON RED SIGN shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then before entering the intersection and shall remain standing until an indication to proceed is shown except as provided in (b) below.
 2. When no sign is in place prohibiting a right turn, or a left turn from a one way street to another one way street, drivers facing a steady CIRCULAR RED signal may cautiously enter the intersection to make the right turn, or left turn from a one way street to another one way street, after stopping as provided in (a) above. Such drivers shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection. Right hand turns on red are prohibited at the locations listed in Schedule J, hereto appended to which reference is made and which Schedule J is specifically incorporated in this section.
 3. Drivers, facing a steady RED ARROW indication may not enter the intersection to make the movement indicated by such arrow, and unless entering the intersection to make such other movement as is permitted by other indications shown at the same time, shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then before entering the intersection and shall remain standing until an indication to make the movement indicated by such arrow is shown.
- (d) WALK and DON'T WALK indications (and/or the corresponding international symbols) have the following meaning:
1. While the steady WALK indication is illuminated, pedestrians may enter a crosswalk controlled by such indication. Drivers shall yield the right-of-way to any pedestrian crossing when this indication is displayed. While the Flashing DON'T WALK indication is illuminated, pedestrians shall not leave the curb and enter the crosswalk, however, any pedestrian already in the crosswalk at the time that this indication is displayed may continue to cross to the opposing curb. While the steady DON'T WALK indication is illuminated, it shall be unlawful for a pedestrian to enter an intersection controlled by such indication. The enforcement and penalty for violating this provision shall be as specified in Chapter 89, §8 of the General Laws.
- (e) Flashing signal indications shall have the following meanings:
1. Flashing red (stop signal) – When a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection, and the right to proceed shall be subject to the provisions of Chapter 89, §8 of the General Laws.
 2. Flashing Yellow (caution signal) – When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection or pass such signal only with caution.

Section 7-19 Stop Signs, Yield Signs, Through Ways

(a) For Stop Signs

In accordance with the provisions of Chapter 89, §9 of the General Laws, the streets listed in Schedule O of these rules and orders are hereby declared to constitute stop streets or flashing red signal intersections as the case may be, and said Schedule O is hereto appended to which reference is made and which Schedule O is specifically incorporated in this section.

(b) For Through Ways

In accordance with the provisions of Chapter 89, §9 of the General Laws, the following way is hereby designated as a through way:

Broadway, from Charlestown-Somerville Line to easterly side of Monsignor McGrath Highway and from westerly side of said Monsignor McGrath Highway to the Arlington-Somerville Line.

(c) For Yield Signs

In accordance with the provisions of Chapter 89, §9 of the General Laws, the following way is hereby designated as a yield at the intersection indicated:

Northbound drivers on Cutter Avenue turning west at Highland Avenue.
(74-23, 74-24, 74-26)

Section 7-20 No Driving on Sidewalks

The driver of a vehicle shall not drive upon any sidewalk except at a permanent or temporary driveway.

Section 7-21 No Driving Through Safety Zones

It shall be unlawful for the driver of a vehicle, except on signal from a police officer to drive the same over or through a safety zone.

Section 7-22 Keep to the Right of Roadway Division

Upon such roadways as are divided by a parkway, grass plot, reservation, viaduct, subway or by any structure or area, drivers shall keep to the right of such a division except when otherwise directed by an officer, signs, signals, or markings.

Section 7-23 Operation of Under- or Overpasses at Intersection with Islands

At any junction or crossing of ways where the roadway grades have been separated and where the ways are connected by ramps and at any intersection of ways in which there are traffic islands, drivers of vehicles shall proceed only as indicated by official signs, signals or markings.

Section 7-24 Driving on Road Surfaces Under Construction or Repair

No operator shall enter upon a road surface of any street or highway or section thereof, when, by reason of construction, surface treatment, maintenance or the like, or because of some unprotected hazard, such road surface of the street or highway is not to be used or when so

advised by an officer, watchman, member of a street or highway crew or employees of the city, either audibly or by signals.

Section 7-25 Funerals to be Properly Identified

A funeral composed entirely or partly of a procession of vehicles shall be identified as such by means of black pennants bearing a purple symbol attached to both the first and last vehicles or other suitable means.

Section 7-26 Right and Duties of Drivers in Funerals and Other Processions

- (a) It shall be the duty of each driver in a funeral or other procession to keep as near to the right edge of the roadway as is feasible and to follow the vehicle ahead as closely as practicable and safe.
- (b) At an intersection where a traffic control signal is operating the driver of the first vehicle in a funeral or other procession shall be the only one required to stop for a red and/or yellow indication.
- (c) At an intersection where a lawful Stop sign exists, the driver of the first vehicle in a funeral or other procession shall be the only one required to stop before proceeding through the intersection.

Section 7-27 Operation of Heavy Commercial Vehicles

- (a) The use and operation of heavy commercial vehicles having a carrying capacity of more than 2 ½ tons, are hereby restricted on the streets listed in Schedule P, and in the manner outlined and during the period of time set forth.
- (b) No person shall park or stand a trailer or semi-trailer as defined in G.L. ch. 90 sec.1, or a so called dolly device which is used to move a tandem semi-trailer, on any public way, unless such trailer or semi-trailer or dolly device is properly attached to a motor vehicle which can lawfully move said trailer, semi-trailer, or dolly device.
- (c) The standing or parking of any commercial vehicle (2 axles or less) and the standing or parking of any heavy commercial vehicle (3 axles or more) between the hours of 12:00 AM and 6:00 AM on any day on any part of any street, way, highway, road or parkway under the control of the city is prohibited. Except that a special permit may be issued to School Van vehicles that are registered in Somerville with Massachusetts Pupil license plates and operated by Somerville residents provided there is no off street parking available. There is a limit of 1 exemption permit issued per household. Applications to apply for this exemption permit are available at the Traffic and Parking Office. Permits will be issued upon verification and approval of the application. Non-Commercial permits will be issued to vehicles that are registered in Somerville and carry a personal use only insurance policy and that have no business lettering or logo. To obtain this permit, a resident must present their current valid Massachusetts registration showing their Somerville address, a current utility bill or apartment lease, the coverage selection page from their insurance policy showing that the vehicle is insured for personal use only, and they must bring their vehicle to the office for verification that it bears no business lettering or logo. Zip Cars are exempt from this regulation.
(81-13), (86-3), (88-1)
- (d) No person shall drive or park any vehicle designated or used primarily for the purposes of advertising on any street in Somerville without a license from the City Council.

(e) Exemptions – Parts a-d of this Section shall not apply to heavy commercial vehicles going to or coming from places upon said streets for the purpose of making deliveries of goods, materials or merchandise to or similar collections from abutting land or buildings or adjoining streets or ways to which access cannot otherwise be gained; or to vehicles used in connection with the construction, maintenance, and repair of said streets or public utilities therein; or to Federal, State, Municipal or public service corporation owned vehicles.

ARTICLE VIII TEMPORARY TRAFFIC CONTROL

Section 8-1 Authority

The Traffic Commission delegates to the Traffic Director (or their designee) sole authority to regulate, approve, and direct the implementation of traffic control devices for work zones and events on ways under the control of the Somerville Traffic Commission. All work zones and temporary traffic control devices shall be established and maintained in accordance with 23 CFR Parts 630 and 655 - the Manual on Uniform Traffic Control Devices (MUTCD), most recent edition; and Chapter 85 of the General Laws, including any and all amendments or errata issued by duly empowered officials; Title 454 CMR c. 10; and DTE Regulation 98.22.

Section 8-2 Definitions

The following definitions of common terms apply to this Article.

Work zone – any workspace established on a public way by an entity performing construction or related activities. The term work zone shall apply to those workspaces that are either legally or illegally conducted by all parties.

Event – any activity approved by the City to be conducted within a public way, including block parties, charity events, road races, parades, and other activities not related to construction activities.

Traffic Control Plans – any combination of engineered plans, typical drawings, specifications, and/or contract documents meeting the approval of the Traffic Director and used for the purpose of implementing temporary traffic control requirements related to work zones and events as defined in this regulation.

Proponent – any individual, agent, or entity that requires authorization to occupy all or portions of a public way on a temporary basis for the purpose of construction or for an event.

Workzone Traffic Inspector – Any individual designated by the Traffic Director to inspect work zones for adherence to approved traffic management plans. The qualifications to be designated a Workzone Traffic Inspector include employment by the City and certification as a Work Zone Safety Specialist by the International Municipal Signal Association.

Temporary Parking Restrictions – Parking restrictions intended to be in effect for less than five working days that are required to perform emergency or scheduled work in a public way.

Section 8-3 Travel Lane and Sidewalk Closures More than Eight Hours

(a) Scope - Any proponent who requires authorization to close an entire street for any length of time, or a travel lane or a sidewalk for more than eight hours, on a public way on a temporary basis for the purpose of construction or for an event shall obtain the express approval of the Traffic Director. For roadway closures requiring City Council approval, the signature of the traffic director (or designee) on the City Council's "Public Property Occupancy Permit

Application”, as may be conditioned, shall suffice to satisfy this requirement. For work under this section arising under the authority of a street opening permit issued by the City of Somerville Department of Public Works, the work shall be approved by the Traffic Director prior to implementation in accordance with the terms prescribed on the back of the permit. All other work arising under this section shall be performed with the express approval of the Traffic Director as further described in this Article. Such approval shall only constitute an endorsement of the proponent’s proposed traffic management plan and is not intended to replace the approval of other duly authorized bodies of the City, including the City Council and the Department of Public Works.

(b) Procedure - The following procedure is required for proponents seeking approval of their work zones arising under this section. The Traffic Director may waive all or part of this requirement.

1. For work lasting less than two days, the Traffic Director shall be notified and the proponent shall utilize typical traffic management details unless a road closure is required.
2. Except in the case of emergencies, each proponent requiring the occupation of a travel lane (for more than two days) or the complete closure of a street, shall file a proposed traffic management plan required under this section with the Traffic & Parking Department as soon as practical prior to the date of the proposed construction.
3. Once a traffic management plan has been implemented, it shall be the proponent’s responsibility that the work zone or event area is maintained in accordance with the approved plan. Failure to maintain the plan as approved or in an unsafe manner shall result in the termination of approval to operate the plan.
4. Each proponent shall secure the services of Police Details as specified in the plan, if required. The Chief of Police (or their designee) shall direct the police details in a manner consistent with the approved traffic management plans and Article 2 of these Regulations.
5. Where conflicts arise between these regulations and DTE Regulation 98.22, the DTE regulations will govern.

Section 8-4 Routine Work Not Arising Under Section 8-3

Where work is proposed which will not require the expressed approval of the Traffic Director as described in Section 8-3, typical traffic management plans issued by the Traffic & Parking Department shall govern the operation of work zones. The Traffic Management Plans will be made available at the Traffic & Parking Department, the Department of Public Works, and the Police Department. For street opening permits issued by the Department of Public Works, operation of the typical traffic management plans will serve to satisfy the terms prescribed on the back of the permit unless otherwise included in Section 8-3.

Section 8-5 Emergency Work

Emergencies arising under this section shall be reported to the Traffic Director as soon as possible after the emergency is declared.

(a) During emergencies requiring a response on the part of a utility regulated by the Commonwealth of Massachusetts Department of Telecommunications and Energy (DTE), pre-approved traffic management plans may be used in lieu of proposed traffic management plans. The authorized representative of affected utilities shall have the authority to declare such emergencies as required.

(b) Under emergency conditions, representatives of the City of Somerville Departments of Public Works, Traffic & Parking, Police and Fire shall establish work zones consistent with typical traffic management plans provided by the Traffic & Parking Department to the extent possible under the circumstances

Section 8-6 Technical Requirements

All work zones shall be designed to comply with the standards prescribed by 23 CFR Part 655 as specified in the Manual on Uniform Traffic Control Devices (MUTCD), most recent edition, including all errata and amendments issued by the United States Department of Transportation, Federal Highway Administration, and the Commonwealth of Massachusetts Highway Department. The following additional requirements apply.

(a) Traffic Management Plans submitted for the approval of a work zone arising under Section 8-3 must be stamped by a Professional Engineer registered in Traffic Engineering by the Commonwealth of Massachusetts, or a registered Civil Engineer with certification by the Institute of Transportation Engineers as a Professional Traffic Operations Engineer. The Traffic Director may waive all or part of this requirement depending on the complexity of the proposed work zone.

(b) All signs and pavement markings used in conjunction with work zones must comply with the MUTCD. Specific attention is directed to the requirements set forth in Part 6 of this document. No waivers of this requirement are authorized.

(c) The Traffic Director, the City Traffic Engineer, or other authorized designee must approve all temporary parking restrictions. Requests for temporary parking restrictions will be evaluated by the Department of Traffic & Parking based on their potential impact to commerce, traffic flow, and public safety. The Traffic Director shall have the authority to approve a request as submitted, alter the request and approve it, or deny the request outright. Temporary parking restrictions shall have the full force of law.

(d) Temporary parking restrictions in areas where parking meters are not in effect shall be implemented through the posting of signs provided by the Traffic & Parking Department. Such parking restrictions shall only be valid if they specify the dates and times the restrictions are in effect and are posted 48 hours in advance of the desired restrictions. The signs must be affixed to a public appurtenance such as a street sign or meter post, or a sawhorse or traffic barrel provided

by the City or the proponent. The signs must be maintained in a completely legible fashion and must be free of debris, dirt or obstruction.

(e) Temporary parking restrictions at parking meters shall be implemented through the “bagging” of meters by Traffic & Parking staff. The bagging will be performed no earlier than one hour before the desired restrictions are to take effect. Requests must be received no later than 48 hours in advance of the requested bagging.

(f) A charge commensurate with the cost incurred by the City must be paid to the Department of Traffic & Parking for meter bagging and the provision of temporary parking restriction signs.

(g) Where appropriate, the Traffic & Parking Department may provide a proponent with “typical” traffic management plans to facilitate simple requests. The typical plans do not relieve the proponent from exercising good judgment in implementing the plan and applying the plan to specific situations. In these cases, the proponent may be required to sign an acknowledgement that they understand the use of the typical traffic management plan and can apply it to their situation.

(h) The design and operation of work zones under the provisions of this Article shall be the responsibility of the proponent.

Section 8-7 Enforcement

The proponent for any work zone which is not operated in accordance with approved traffic management plan will be informed as soon as possible that the approval of the Traffic Director has been revoked and that all work in the public way must cease and desist immediately. Spot corrections ordered by the Traffic Director (or designee) shall be immediately implemented. Such action may be taken by the Traffic Director, the City Traffic Engineer, a Work Zone Traffic Inspector from the Traffic & Parking Department, Chief of Police (or their designee), or the Commissioner of Public Works (or their designee). The Traffic Director may authorize the work to recommence after the proponent demonstrates compliance with the requirements set forth in the approved traffic management plan.

ARTICLE IX ACCIDENT REPORTS

Section 9-1 Drivers Must Report Accidents

Every person operating a motor vehicle which is in any manner involved in an accident in which any person is killed or injured or, in which there is damage in excess of one thousand dollars (\$1,000.00) to any one vehicle or other property, shall report such accident within five (5) days to the Registrar and to the Police Department in accordance with the provisions of Chapter 90, Section 26, of the General Laws.

ARTICLE X TOWING AND TOWING ZONES

Section 10-1 In general

In accordance with the provisions of Chapter 40, §22D of the General Laws of Massachusetts, as most recently added by Chapter 322 of the Acts of 1961, the Traffic Commission of the City of Somerville hereby enacts the following regulations authorizing the removal to a convenient place of vehicles parked or standing in any manner, or in such areas as are hereinafter described on any way under the control of the City of Somerville. Vehicles specifically exempt by Chapter 40, §22D shall not however be subject to such removal.

Section 10-2 Authorization of police

The moving or towing of any vehicle under the provisions of this Article shall be at the direction of the Chief of Police or such other officers of the rank of Sergeant or higher in the Police Department as he may from time to time designate.
(1969-12)

Section 10-3 Fees

The Traffic Commission hereby imposes upon the owner of any vehicle moved or towed to a convenient place, under the provisions of this Article, the following fees:

- (a) Removal or Towing Fee: not to exceed that which is provided in or as authorized by Statute Law.
- (b) Storage Fees: not to exceed that which is provided in or as authorized by State Law.

Section 10-4 Liability for Damage During Removal or Storage

The contractor shall be liable to the owner for any damage arising out of negligence caused to a vehicle in the course of removal or storage.

Section 10-5 General prohibition towing zones

No person shall stand or park or allow, permit or suffer any vehicle registered in their name to stand or park in any of the following places or in any way in violation of the provisions of section 5-1 (a) through (r). Vehicles found in violation of the provisions of this Section or section 5-1 except those specifically exempt by law, shall be removed to a convenient place under the direction of an officer of the Police Department and the owner of the vehicle so removed or towed away shall be liable to the cost of such removal and storage, if any, as set forth in Section 10-3 of this Article. The owner of any vehicle removed or towed away under the provisions of this Section shall also be subject to the penalties provided as authorized by Chapter 90, §20A of the General Laws.

- (a) Upon any way in such a manner as to impede the removal or plowing of snow or ice except vehicles parked in accordance with approved regulations governing all night parking.
- (b) Upon any sidewalk.
- (c) Upon or within 20ft of any crosswalk.

- (d) Upon any way within twenty feet of an intersecting way except alleys.
- (e) Upon any way within ten feet of a fire hydrant.
- (f) On the roadway side of any vehicle stopped or parked at the edge or the curb of the way.
- (g) In front or within two (2) feet of a public or private driveway.
- (h) Upon any way where the parking of a vehicle will not leave a clear and unobstructed lane at least twelve feet wide for passing traffic.
- (i) Upon any way for a period of time exceeding twenty-four consecutive hours, whether the vehicle is disabled or not and preparations are being made by the owner or operator for its removal.
- (j) Upon the roadway where parking is permitted unless both wheels on the side of the vehicle adjacent to the curb are within one (1) foot of the curb or edge of the roadway and headed in the direction of traffic except where angle parking is permitted or commercial vehicles are backed to the curb.
- (k) At a Bus Stop which is so designated by official traffic signs and official street markings.
- (l) Upon any street or part thereof on the days and during the hours indicated, where signs have been erected by order of the Superintendent of Highways for the purpose of facilitating the cleaning of streets.
- (m) Occupying or obstructing any parking spaces designated as reserved for vehicles owned and operated by veterans with disabilities or persons with disabilities; any violation of this regulation shall be punished by a fine of \$200.00.
- (n) In such a manner as to obstruct a curb ramp designed for use by persons with disabilities as a means of egress to a street or public way; any violation of this regulation shall be punished by a fine of \$200.00.
- (o) Loading zones which are properly designated by official traffic signs which state "Tow Zone".
- (p) On or adjacent to a safety island, median island or safety zone.
- (q) Alongside or opposite any street excavation or obstruction when parking obstructs traffic.
- (r) On any railroad tracks.
- (s) Upon any bridge or other elevated structure or within a highway tunnel.

- (t) Upon or within an alley or private way in such a manner or under such conditions as to leave available less than ten (10) feet of the width of the roadway for the free movement of vehicular traffic, or in such position as to block the driveway entrance to any abutting property.
- (u) Hazardous or congested locations which are properly designated by official traffic signs which state "No Stopping Tow Zone".
- (v) These locations are listed in Schedule R, hereto appended to which reference is made and which Schedule R is specifically incorporated in this section.
- (w) Occupying or obstructing any parking space without a Business Permit within a parking lot designated as "Business Permit Parking" and designated by official traffic signs which state "Tow Zone Business Permit Parking."
- (x) Upon any Bicycle Lane

Section 10-6 Posted Prohibition Towing Zones - General

No person shall stand or park or allow, permit or suffer any vehicle registered in their name to stand or park on any of the ways or parts of ways hereinafter described and listed as "Tow Zone" in Schedule C and during the periods of time set forth. Vehicles found in violation of the provisions of this Section except those specifically exempted by law shall be removed to a convenient place under the direction of an officer of the Police Department and the owner of the vehicle so removed, or towed away, shall be liable to the cost of such removal and storage, if any, as set forth in Section 10-3 of this Article. The owner of any vehicle removed or towed away under the provisions of this Section shall also be subject to the penalties provided in Chapter 90, §20A of the General Laws.

Section 10-7 Official Traffic Signs

The provisions of Section 10-6 shall be effective only during such time as a sufficient number of official traffic signs bearing the legend TOW-AWAY ZONE are installed, erected, maintained and located so as to be visible to approaching drivers, said signs to be appended above or incorporated into the legend of Parking Prohibition Signs.

Section 10-8 Police to keep record of towed vehicles

The Police Department shall keep a record of all vehicles towed or removed under the provisions of this Article. Such record shall be retained for one (1) year and shall contain the following information:

- (a) The registration of the vehicle.
 - (b) The location from which it was towed, and the time and date of the tow order.
 - (c) The location to which it was towed.
 - (d) The fee charged for towing.
 - (e) The name of the towing contractor.
 - (f) Name and rank of the officer who authorized the towing.
- (1969-12)

Section 10-9 Vehicles Exempted

- (a) Those owned by the Commonwealth or a political subdivision of the Commonwealth.
 - (b) Those owned by the United States Government.
 - (c) Those registered to a member of a foreign diplomatic corps or by a foreign consular officer who is not a citizen of the United States provided that the vehicle bears a conspicuous number plate or is otherwise conspicuously marked as so owned or registered.
- (1969-12)

Section 10-10 Snow emergency tow zone

Further subject to being towed or removed and other penalties, as set forth in Section 10-5 of this Article X, shall be any vehicle upon any way in violation of the following:

If it is the judgment of the Commissioner of Public Works of this city, or in the absence by reason of illness the inability to act of said Commissioner, then of the Superintendent of the Division of Highways of the city, that threatening or existing weather conditions may impair the free flow of vehicular traffic or that parked or standing vehicles may impede the removal or plowing of snow and ice, then the said Commissioner or Superintendent, if properly acting in their stead, may declare a state of emergency to be effective at the time designated by them and to be in effect for such time as in their judgment is necessary.

Whenever such an emergency is declared by the said Commissioner or said Superintendent and they shall have caused announcement thereof by the use of then available news and/or other mass communication media, then during the existence of such emergency no motor vehicle shall be allowed to park or stand within the limits of any of the ways and parts thereof named in this Section 10-11.

A Certificate by the said Commissioner or said Superintendent stating the effective time and termination time of any such declared state of emergency, and that they caused announcement thereof by the use of available news and/or other communication media, and filed with the City Clerk shall be prima facie evidence of said facts in any prosecution or towing liability to owners of vehicles parked in violation of this Section 10-11.

This Section 10-11 shall not apply to commercial vehicles stopped temporarily during the actual loading or unloading of materials.

This Section 10-11 shall apply to:

- (a) All streets under the control of the City and shall prohibit parking on the even numbered address side of all streets in a winter season that begins in an odd numbered year and on the odd numbered address side of all streets in a winter season that begins in an even numbered year, except in the event where parking is already prohibited on a certain side of the street at all times in which case parking will only be allowed on that side and remain unchanged.
- (b) All areas designated "No Parking, No Standing, or No Stopping" with official signs erected and maintained by the City.

The declaration of a state of emergency as provided by this Section 10-11 shall suspend and supersede the provisions of Section 10-5 of this Article X on the Snow Emergency Arteries as established to the extent that all night parking is exempted, while such state of emergency is in force and effect.

While any such state of emergency is in effect, all other Regulations, rules and regulations governing the parking or standing of motor vehicles on the ways which are in conflict with this Section shall, during said state of emergency, be deemed suspended to the extent only that they permit parking or standing which would be in violation of this Section.

All other sections of this Article X relating to the towing or removal of vehicles shall be applicable to vehicles towed or removed under this Section.
(1969-12)

Upon formal request and approval of the Traffic Commission, streets that have parking on both sides of the street for the duration of the snow plow route, parking will only be allowed on the side of the street with houses during snow emergencies in both park-even and park-odd seasons. These streets will be listed in Schedule T of the Traffic Commission Rules and Regulations.

ARTICLE XI PENALTIES AND REPEALS

Section 11-1 Owner prima facie responsible for violations

If any vehicle is found upon any street or highway in violation of any provisions of these rules and regulations and the identity of the driver cannot be determined, the owner or the person in whose name such vehicle is registered, shall be held prima facie responsible for such violations.

Section 11-2 Penalties

Any person violating any provisions of any rule, regulation or order regulating the parking of motor vehicles made by anybody authorized to make the same shall be dealt with as provided in General Laws, Chapter 90, §20A or any Acts in amendment thereof, or in addition thereto, and any person violating any of the rules and regulations applicable to State Highways made by the Massachusetts Highway Department, Commonwealth of Massachusetts, under authority of Chapter 85, §2 of the General Laws, and Acts in amendment thereof, and in addition thereto, shall be subject to the penalty provided in said rules and regulations.

Violations of the Parking provisions of this regulation shall be subject to the following schedule of fines:

<u>Violation</u>	<u>Fine</u>
Over 48 Hours	\$50
Taxi Stand	\$50
Meter Violation	\$30
Restricted Zone	\$50
High School Concourse	\$50
Commercial Overnight	\$50
Wrong Direction	\$50
Overtime Parking	\$50
On Sidewalk	\$50
Bus Stop	\$100
Loading Zone	\$50
Obstructing Driveway	\$100
Over 1 ft. from Curb	\$50
Construction Zone (Posted)	\$50
At Traffic Island/Safety Zone	\$50
Leaving less than 10 ft. Passage	\$50
Obstructing Street Sweeping	\$50
No Stopping Zone	\$50
Permit Parking	\$50
Obstructing Posted Fire Lane	\$100
Within 20 ft. of Intersection	\$50
On Crosswalk	\$50
Obstructing Accessible Ramp	\$200
Double Parked	\$50

Within 10 ft. of Hydrant	\$100
Accessible Parking	\$200
Unattached Trailer/Semi Trailer	\$50
Non-Compliance Moving Van Permit	\$50
Non-Compliance Moving Container/Portable	\$50
On Demand Storage (POD) Permit	
Invalid or Expired Registration Plate	\$50
Invalid or Expired Inspection Sticker	\$50
Obstructing Bicycle Lane	\$50
Declared Snow Emergency:	
Tow Zone/Obstructing Snow Plow	\$100
Within 10 ft. of Hydrant/Designated Fire Lane	\$100
Within 20 ft. of an Intersection	\$100

Section 11-3 Late payment penalties

If any parking citation remains unpaid for over twenty-one days and the registered owner of the vehicle has not requested in writing for a hearing before the Parking Clerk, a five-dollar additional penalty as provided for in Chapter 90, §20A shall be added to penalties established in §54.

If the Parking Clerk notifies the registered owner of a vehicle by First Class Mail of the registered owner's failure to pay a parking citation within twenty-one days, the owner shall have thirty days to make full payment with a five-dollar late penalty or twenty-one days to request in writing a hearing before the Parking Clerk. If any citation remains unpaid as provided herein, a fifteen-dollar additional penalty shall be added to penalties established in Section 54. An additional penalty of \$40 will be added when the Parking Clerk reports non-payment to the Registrar of Motor Vehicles for non-renewal of the driver license and vehicle registration as provided for in Chapter 90, §20A of the General Laws.

(82-9)

Section 11-4 Repeal

These rules are adopted with the intent that each of them shall have force and effect separately and independently of every other except insofar as by express reference or necessary implication any rule or any part of a rule is made dependent upon another rule or part thereof.

All official signs, lights, markings, signal systems or devices erected or installed under prior rules or regulations and necessary to the enforcement of these regulations shall be deemed to have been lawfully erected or installed hereunder provided the same were erected or installed with the permission and approval of the Highway Department of the Commonwealth of Massachusetts and insofar as the same are necessary as aforesaid for the enforcement of these regulations they shall be deemed continuing hereunder but in all other respects all prior rules, orders and regulations made by the City of Somerville for the regulation of vehicles are hereby expressly repealed. This repeal, however, shall not affect any punishment or penalty imposed or any complaint or prosecution pending at the time of the passage hereof for any offense committed under said prior rules, order or regulations hereby repealed, nor shall said repeal be

effective unless and until these rules and regulations have been approved and published as required by law.

Section 11-5 Effect of Regulations

If any section, subsection, sentence, clause or phrase of these rules and order is for any reason unconstitutional, such decisions shall not affect the validity of the remaining portion of these rules and orders. The City of Somerville hereby declares that it would have passed these regulations and each section, subsection, sentence, clause or phrase thereof irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared unconstitutional.

ARTICLE XII PEDESTRIAN CONTROL REGULATIONS

Section 12-1 Pedestrian crossing ways or roadways

Pedestrians shall obey the directions of police officers directing traffic and whenever there is an officer directing traffic or a traffic control signal within three hundred (300) feet of a pedestrian, no such pedestrian shall cross a way or roadway except within the limits of the marked crosswalk and as hereinafter provided in these regulations. For the purpose of these regulations, a marked crosswalk shall be marked according to the "Crosswalk Markings" section of the currently approved edition of the MUTCD (currently Section 3B.18 in the 2009 Edition).

Section 12-2 Pedestrian actuation

(a) At a traffic control signal location where, pedestrian indications are provided but which are shown only upon actuation by means of a pedestrian push button, no pedestrian shall cross a roadway unless or until the pedestrian control signal push button has been actuated and then cross only on the proper pedestrian signal indication. At traffic control signal locations where no pedestrian indication is provided, pedestrians shall cross only on the green indication. If necessary, the green indication shall be actuated by the pedestrian by means of a push button.

(b) At a traffic control signal location, pedestrians shall yield the right of way to vehicles of a funeral or other procession or authorized emergency vehicle while in performance of emergency duties regardless of the signal indication given, and they shall not attempt to cross the roadway until such vehicles or procession has passed at which time pedestrians shall then cross the roadway only as provided in these regulations.

Section 12-3 Pedestrian obedience to traffic control signals

Traffic control signal color indications and legends shall have the commands ascribed to them in this section and no other meanings, and every pedestrian shall comply therewith, except when otherwise directed by an officer.

WALK and DON'T WALK indications (and/or the corresponding international symbols) have the following meaning:

While the steady WALK indication is illuminated, pedestrians may enter a crosswalk controlled by such indication. Drivers shall yield the right-of-way to any pedestrian crossing when this indication is displayed.

While the Flashing DON'T WALK indication is illuminated, pedestrians shall not leave the curb and enter the crosswalk, however, any pedestrian already in the crosswalk at the time that this indication is displayed may continue to cross to the opposing curb. While the steady DON'T WALK indication is illuminated, it shall be unlawful for a pedestrian to enter an intersection controlled by such indication. The enforcement and penalty for violating this provision shall be as specified in Chapter 90, §18A of the General Laws.

Section 12-4 Pedestrian crossings and use of roadways

- (a) No pedestrian shall suddenly leave a sidewalk or safety island and walk or run into the path of a vehicle which is so close that it is impossible for the driver to yield the right of way.
- (b) Pedestrians shall at all times attempt to cross a roadway using the right half of crosswalks.
- (c) Where sidewalks are provided, it shall be unlawful for any pedestrian to walk along and upon an adjacent roadway whenever the sidewalk is open to pedestrian use.
- (d) Where sidewalks are not provided, any pedestrian walking along and upon a highway shall, when practicable, walk only on the left side of the roadway on its unfinished shoulder facing traffic which may approach from the opposite direction.
- (e) Persons alighting from the roadway side of any vehicle parked at the curb or edge of the roadway shall proceed immediately to the sidewalk or edge of roadway adjacent to vehicle, and shall cross on the roadway only as authorized by these regulations.
- (f) It shall be unlawful for any person to actuate a pedestrian control signal or to enter a marked crosswalk unless a crossing of the roadway is intended.

Section 12-5 Crossing at Non-Signalized Locations

When traffic control signals are not in place or not in operation, the driver a vehicle shall yield the right of way, slowing down or stopping if needed to so yield, to a pedestrian crossing the roadway within a marked crosswalk if the pedestrian is on that half of the traveled part of the way on which the vehicle is traveling or if the pedestrian approaches from the opposite half of the traveled part of the way to within five feet of that half of the traveled part of the way on which said vehicle is traveling.

Every pedestrian crossing a roadway at any point other than within a marked crosswalk shall yield the right of way to all vehicles upon the roadway. At a point where a pedestrian tunnel or overpass has been provided pedestrians shall cross the roadway only by the proper use of the tunnel or overpass.

(General Laws Ch.90, § 11)

Section 12-6 Operators to exercise due care

The provisions of these regulations shall in no way abrogate the provisions of Chapter 90, §§14 and 14A of the General Laws which provide: "Precautions for Safety of Other Travelers" and for the "Protection of Blind Persons Crossing Ways". Furthermore, notwithstanding the provisions of these regulations every operator of a vehicle shall exercise due care to avoid colliding with a pedestrian upon the roadway and shall give warning by sounding the horn when necessary and shall exercise proper precautions which may become necessary for safe operation.

Section 12-7 Pedestrians Soliciting Rides or Business

No person shall stand in a roadway for the purpose of soliciting a ride, employment or business from the operator or occupant of any vehicle without the written permission of the board or officer having control of such roadway or highway.

Section 12-8 Officers to enforce pedestrian regulations

These pedestrian control regulations shall be enforced by all officers of the City of Somerville.

Section 12-9 Exemptions

The provisions of these rules and regulations governing the use of ways by pedestrians shall not apply to pedestrians actually engaged in work upon a roadway closed to travel or under construction or repair, to municipal, state, federal or public service corporation employees while in the performance of their duties, to officers engaged in the performance of their public duties or to pedestrians acting in an emergency when such emergency necessitates departure from any part of these rules and regulations.

Section 12-10 Penalties

Any person who violates the provisions of this Article, which deals with the proper use of ways by pedestrians, shall be punished as provided in Chapter 90, §18A of the General Laws.

Section 12-11 Effect of regulations

All existing rules and regulations governing the operation of vehicles or the use of ways by pedestrians which are inconsistent herewith are hereby expressly repealed. This repeal shall not, however, affect any punishment or penalty imposed or any complaint or prosecution pending at the time of passage hereof for any offense committed under any of the said rules and regulations hereby repealed.

If any section, subsection, sentence, clause or phrase of these rules and order is for any reason unconstitutional, void for vagueness, illegal, or unenforceable, such decisions shall not affect the validity of the remaining portion of these rules and orders. The City of Somerville hereby declares that it would have passed these regulations and each section, subsection, sentence, clause or phrase thereof irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared unconstitutional.

ARTICLE XIII BICYCLE REGULATIONS

Section 13-1 Authority

The Traffic Commission, pursuant to the provisions of the General Laws, c. 85 § 11B and c. 90E § 1, hereby adopts this section regulating the operation of bicycles and other non-motorized transportation (not including pedestrians).

Section 13-2 Definitions

The following definitions of common terms apply to this Article.

Non-Motorized Transportation Conveyances – All non-motorized modes of transportation, which are human powered conveyances according to c. 90 § 18A of the general laws. Such modes shall include bicycles, scooters, and all other wheeled conveyances meeting the definition of a human powered conveyance.

Traffic Controls – For the purposes of this article, traffic controls shall include all electrically displayed signals, signs, and pavement markings lawfully installed under the authority of this article.

Bike Path – A route for the exclusive use of bicycles separated by grade or other physical barrier from motor traffic.

Bike Lane – A lane on a street restricted to bicycles and so designated by appropriate traffic controls.

Bike Route – A roadway shared by both bicycles and other forms of transportation designated by the means of traffic controls.

Bikeway – Bike lanes, bike paths, and bike routes.

Bicycle Parking Facility – Any facility for the temporary storage of bicycles which allows the frame and both wheels of the bicycle to be locked so as to minimize the risk of theft and vandalism. Specifically, bicycle-parking facilities include designated bicycle racks and rings.

Section 13-3 Traffic Controls for Bikeways

Traffic controls shall meet all of the requirements of Part 9 of the Manual on Uniform Traffic Controls (MUTCD), *Traffic Controls for Bicycle Facilities*, unless otherwise proscribed herein.

Section 13-4 Authority to Operate on City Streets and Ways

Non-motorized transportation conveyances may be operated in accordance with applicable state law on all streets and ways under the control of the Traffic Commission. Bicycles may be operated in general traffic or on sidewalks except as hereinafter proscribed. All other human powered conveyances must be operated on sidewalks except as hereinafter

proscribed. Pedestrians shall have the right-of-way over bicycles on all sidewalks and in all crosswalks.

Section 13-5 Operation Prohibited on Certain Sidewalks

Non-motorized transportation conveyances are prohibited from operating on sidewalks and in parks in certain districts as hereinafter defined. Persons operating non-motorized transportation conveyances must dismount said conveyances and walk within these districts.

- (a) Davis Square – On Holland Street, from Irving Street to College Avenue; On Elm Street, from College Avenue to Windom Street; on Highland Avenue, from Cutter Avenue to College Avenue; and on College Avenue from Highland Avenue to Morrison Avenue; and on all intersecting ways within those limits a distance of fifty feet from the above-named streets.
- (b) Union Square – On Washington Street, from Columbus Avenue to Hawkins Street; on Somerville Avenue, from Milk Place to Church Street; on Prospect Street, from Webster Avenue to Washington Street; on Webster Avenue from Washington Street to Prospect Street; on Bow Street from Washington Street to Somerville Avenue; and on all intersecting ways within those limits a distance of fifty feet from the above-named streets.
- (c) Porter Square – On Elm Street, from Banks Street to Cherry Street.
- (d) Broadway – from Central Street to Marshal Street; from Cross Street to Mount Vernon Street.
- (e) Ball Square – On Broadway, from Lowden Avenue to Boston Avenue; and on all intersecting ways within those limits a distance of fifty feet from the above-named streets
- (f) Teele Square – On Broadway, from Farragut Avenue to Packard Avenue; on Holland Street, from Broadway to Moore Street; and on all intersecting ways within those limits a distance of fifty feet from the above-named streets.
- (g) Magoun Square – On Broadway, from Hinckley Street to Medford Street; on Medford Street, from Trull Street to Broadway; and on all intersecting ways within those limits a distance of fifty feet from the above-named streets.

Section 13-6 Exclusive Operation in Designated Lanes and Paths

Non-motorized modes of transportation conveyances shall have exclusive use and right-of-way in designated bicycle lanes on ways controlled by the Traffic Commission. Non-motorized transportation conveyances shall have the right-of-way on designated bicycle paths under the control of the Traffic Commission. Motor vehicles are prohibited from operating in bicycle lanes and on bicycle paths. Pedestrians are prohibited from walking in bicycle lanes (except as necessary to cross said lanes in a properly marked crosswalk), but are permitted to use bicycle paths. (General Laws c. 90E).

Section 13-7 Lane Use in Designated Bicycle Lanes

When making a left turn maneuver, bicyclists shall move to the center of the roadway and execute their maneuver in accordance with the rules of the road. Bicycles shall be operated consistent with the provisions of c. 85 of the General Laws.

Section 13-8 Bicycle Parking

Bicycles may only be parked on a public way as hereinafter provided. Bicycles may be secured to existing public appurtenances, such as light poles, street signs, and parking meters.

Where available, bicycles should be secured at bicycle parking facilities. Bicycles may not be secured to public shade trees or to other street furniture, such as benches or trash receptacles. Bicycles not secured properly are subject to impoundment at the discretion of the Chief of Police. Bicycles properly secured which have not been moved in fifteen days may also be impounded. Bicycles secured in violation of this provision shall be subject to a penalty of fifteen dollars and/or impoundment.

Section 13-9 Enforcement; Citations and Penalties

Moving violations and parking violations arising under this Article shall be enforced by officers of the Police Department. Parking Control Officers shall also enforce violations of the parking provisions of this Article. For any bicycle found upon any street or highway in violation of any provisions of these rules and regulations, if the identity of the operator cannot be determined, the owner shall be held prima facie responsible for such violations. Violations of traffic laws are subject to a penalty of twenty dollars or impoundment of the conveyance if the operator is under the age of eighteen. An offender who refuses to state his or her name and address, or who states a false name and address, is subject to a penalty of fifty dollars. The provisions of the General Laws, c. 85 § 11C, shall govern penalties for moving violations.

ARTICLE XIV NEIGHBORHOOD TRAFFIC MANAGEMENT & CALMING PROGRAM

Section 14-1 Authority

The Traffic Commission, pursuant to the provisions of the General Laws, Chapter 85 §2, hereby adopts this section regulating the implementation and use of traffic calming devices on ways within its control.

Section 14-2 Definitions

The following definitions of common terms apply to this Article.

Neighborhood Traffic Management and Calming Measures - Neighborhood traffic management and calming measures, hereinafter referred to as “traffic calming measures”, controlled by this article include methods to reduce the speed and volume of traffic on a particular roadway. There are three primary methods for traffic calming by the state, reducing the width of the roadway, altering the vertical profile of the vehicle path, and deflecting the vehicle path. Alternative methods may also be considered where physical methods are not feasible. Regulatory measures such as STOP signs and traffic signals are not recommended for traffic calming and should only be implemented when warranted by a traffic study to meet regional needs.

Traffic Calming Petition - A petition indicating at least 9 residents, or 33% of the residents on the street (whichever is lower) support the implementation of a traffic calming device.

Section 14-3 Qualifying Criteria

Requests for the implementation of calming measures on public streets will be evaluated by the City on the following criteria:

Criteria for Initial Review:

- (a) The street should be primarily residential in nature;
- (b) A petition indicating at least 9 residents, or 33% of the residents on the street (whichever is lower) support the implementation of a traffic calming device.
- (c) The requested action is consistent with federal, state and local laws.

Traffic Calming Assessment Table

The City uses several metrics to assess the general characteristics of streets and the potential viability of traffic calming measures. A second group of metrics helps document priority considerations. Each metric is assigned a “Yes” or “No” designation. Metrics are described in more detail below.

Metrics	Criteria	Criteria Met?
Traffic Calming Metrics		
Prevailing Speeds	85 th percentile speed exceeds 20 mph	Y/N
Street Width	Paved width of street does not exceed 40 feet	Y/N
Minimum Traffic Volume	Average Daily Traffic of at least 800 vehicles per day	Y/N
Public Support	At least 33% of residents, or 9 residents, support petition.	Y/N
Priority Considerations		
Prevailing Speeds	85 th percentile speed exceeds 25 mph	Y/N
Adjacent Land Use	Street serves or is adjacent to a school, public space, senior center, affordable housing or building of worship.	Y/N
Neighborway	Street identified as Neighborway in Somerville’s Bicycle Network Plan	Y/N
Upcoming Street Reconstruction	Street is adjacent to an upcoming street reconstruction project	Y/N
Totals	Traffic Calming Metrics Met	<u>?/4</u>
	Priority Considerations Met	<u>?/4</u>

Proposed Priority Ranking System

The above recommended metrics for Article XIV installation include a total of four thresholds and four priority considerations. The above analysis is used to direct data collection efforts to evaluate the proposed Traffic Calming Petition. After data collection, the proposed street is added to the traffic calming consideration list where it is evaluated alongside other traffic calming needs based on bi-annual data collection, community feedback, and staff recommendations. Traffic calming is also often implemented in pavement and sidewalk reconstruction projects through the City’s Pavement Resurfacing Program. The length of time it takes to process a request and provide a recommendation, is subject to spring and fall data collection and the volume of requests. Streets at the top of the prioritization list will be more likely to receive funding and will be treated first.

Section 14-4 Neighborhood Traffic Management Process

The following process will be used by the City to address neighborhood traffic concerns:

- (a) A resident alerts the City to a problem area, this can be done through methods such as contacting the City's 311 Services, emailing the Mobility Division, providing feedback as part of a project outreach process, or via a Councilor.
- (b) Neighbors complete a petition (Traffic Calming Request Form, included in Appendix B) including a written description of the location of concern and requires the signatures of at least 9 residents, or 33% of the residents on the impacted street(s) (whichever is lower). Upon submission, the petition will be verified with City records to validate the residency status of the petitioners. The petition must be signed by the inhabitants of households who legally reside on the street. Only one handwritten signature per household will be considered.
- (c) Once the petition is verified, the City will collect data in order to prepare an analysis evaluating the criteria for implementation.
- (d) After data collection, the proposed street is added to the traffic calming consideration list where it is evaluated alongside traffic calming needs based on bi-annual data collection, constituent requests, and staff recommendations.
- (e) The Traffic Commission votes to adopt, reject or modify the recommendations made by the City, if there are impacts to regulations under Traffic Commission's purview (for example, impacts to curb-side parking).

Section 14-5 Standards of Traffic Calming Measures

Any traffic calming measures to be implemented in conjunction with this article shall substantially comply with the provisions of the Massachusetts Department of Transportation's Project Development & Design Guide, Chapter 16, *Traffic Calming and Traffic Management*, and other relevant national and local standards as may promulgated by the Federal Highway Administration (FHWA) of the United States Department of Transportation (USDOT), the American Association of State Highway and Transportation Officials (AASHTO), or the Institute of Transportation Engineers (ITE).

Section 14-6 Types of Traffic Calming Measures

Several levels and types of traffic calming treatments shall be considered when implementing traffic calming devices as further described above.

- (a) Reducing the Width of the Roadway
 - a. Pavement cross-section features including on-street parking, spot narrowing, bike lanes, travel lane width reduction, medians, islands, and road diets.
 - b. Pavement edge treatments like neckdowns, chokers, and curb extensions.

This should be considered primarily for streets with a high amount of pedestrian traffic and alternative uses as it prioritizes other methods of transportation over the vehicle.

- (b) Altering the Vertical Profile
 - a. Speed tables.
 - b. Raised crosswalks and intersections.
 - c. Paving Treatments.
 - d. Temporary rubber speed bumps
- (c) Deflecting the Vehicle Path
 - a. Chicanes.
 - b. Roundabouts at intersections.

This method should be considered primarily for locations where crash rates and speeding are major issues.

- (d) Alternative Traffic Calming Measures
 - a. Police spot enforcement/presence

This method should be considered for roadways that experience significant speeding issues but do not meet the criteria for physical traffic calming measures.

- (e) Turning Prohibitions
 - a. Peak hour turning restrictions

ARTICLE XV FEES AND PERMIT PARKING

Section 15-1 Permit Parking

The Traffic Commission hereby adopts the following permit parking rules and regulations.

Section 15-2.1 Residential Permit Parking

Residents of Somerville, whose motor vehicle, except for a commercial vehicle, is registered and principally garaged in Somerville, and who provides proof of residency as set forth below, may apply for a residential parking permit by completing and signing an application designed to provide the following information:

- a. The name and residential address of the owner of the vehicle;
- b. The name, residential address and driver's license number of the principal operator of the vehicle;
- c. The make, model, color and registration number of the vehicle;

In addition to the application form, an applicant must submit a current valid motor vehicle registration issued by the Commonwealth of Massachusetts Registry of Motor Vehicles showing the car registered in the applicant's name evidencing the applicant's current Somerville residential address. The applicant must also submit a current utility bill (gas, electric, telephone, or cable)

Whenever the Parking Clerk finds that the applicant qualifies under the provisions of this section for a residential parking permit, he or she shall issue to the applicant one (1) residential parking permit for the vehicle described in the application.

Residents who have been issued a residential parking permit shall be entitled to receive up to two visitors' passes per household. The visitor passes shall be used only while visitors are actually visiting the household to which the permits are issued. The visitor pass must be fully visible and readable from the exterior of the vehicle. If a visitor pass is lost, it may be replaced a maximum of two times per year. Visitor passes may be used no more than two days in any one-week period, except Sundays.

Parking permits are restricted for residents of any new development, including (1) the construction of entirely new buildings and (2) the redevelopment or modification of existing buildings that add new units, which meet all of the following conditions:

- a) Located within a Transit Area, as defined by the Somerville Zoning Ordinance, as identified by the official Somerville Zoning Atlas (all lots within ½ mile of a rapid transit station for residential uses).
- b) Located in a Zoning District other than the Neighborhood Residence (NR) District as identified by the official Somerville Zoning Atlas.
- c) Received its first building permit on or after January 15, 2020.

The Parking Department shall maintain a schedule of addresses, certified by the Inspectional Services Department, subject to the parking permit restriction.

Residents of deed restricted affordable dwelling units, residents with disabilities, and residents who claim to have extenuating circumstances may apply for a waiver of the parking permit restriction. Waivers must be adjudicated by OSPCD Housing Division staff, ADA Coordinator, Director of Housing Stability, or their designee. An approved waiver qualifies residents for a resident parking permit only. Visitor passes will not be issued under any circumstances.

The Director of Parking shall issue parking permits only upon receiving adequate documentation that satisfies the waiver requirements of this section. In addition to the application requirements in the first two paragraphs of Section 15-2.1, applicants shall also submit a waiver form with the following information:

1. Residents with Disabilities: the applicant must have a disability plate or disability placard from the Commonwealth of Massachusetts Registry of Motor Vehicles or other duly authorized agency acting under the authority of the Commonwealth or written verification of a medical condition that causes a substantial impairment to the use of public transportation.
2. Residents of a Deed Restricted Affordable Dwelling Unit: the applicant must provide written verification of residence from the Housing Division, Somerville Housing Authority, or other provider of deed restricted affordable housing.
3. Residents with Extenuating Circumstances: the applicant must provide a written recommendation from the Director of Housing Stability in consideration of the extenuating circumstances.

Section 15-2.2 Business Permit Parking

All commercial business in Somerville may apply for a parking permit authorizing the permitted motor vehicle to park in the areas designated by the parking clerk as shown on the permit.

The Traffic Commission, on an annual basis, shall determine the location and number of available permits. A lottery shall be held by the Parking Clerk in which permits are randomly drawn and issued. Any permits remaining after the lottery shall be available for the balance of the year, on a first come first serve basis to qualified businesses.

Business parking permits shall only authorize the permit holder to park on their assigned street/lot in areas designated “BUSINESS PERMIT PARKING ONLY” or “EXCEPT BY PERMIT” and shall be used only during the course of the employment of the permit holder. All Business Permit Spaces in the Davis Square and Magoun Square Municipal Parking Lots will revert to metered spaces Monday through Friday 5pm-10pm and Saturday 8am to 10pm.

Section 15-2.3 City Employee Permit Parking

City of Somerville School Department officers, agents, and employees who work at schools designated by the Traffic Commission shall be entitled to receive a permit authorizing the permit holder to park in permit parking areas when necessary to carry out their official duties on behalf of the School Department.

City of Somerville officers, agents, or employees whose regular place of employment is City Hall shall be entitled to receive a permit authorizing the permit holder to park in those areas designated as City Hall Permit Parking. The permit shall be issued by the Mayor.

Section 15-2.3 Citywide Placards Permit Parking

The Parking Clerk may issue permits to persons not otherwise eligible for a permit, when the Parking Clerk determines that it would serve a public purpose to issue such permit. Before issuing such permit, the Parking Clerk shall state in writing the reasons for their decision to issue the permit.

Section 15-2.4 Valet Parking Regulations

2.4.1 Introduction

The rules and regulations set forth herein shall be part of the City of Somerville Traffic Rules and Regulations pertaining to Valet Parking.

Valet Permit shall be issued to the establishment serviced by the valet parking operation. Such establishments may contract with outside firms to conduct their valet parking operations. A Valet Parking Permit allows the holder exclusive use of curb space during approved time periods and is authorized under the Traffic Department's authority to regulate on-street parking. It is a privilege not a right. Valet parking helps to promote the more efficient use of limited on-street parking spaces. No curb space shall be used for valet parking without a permit issued hereunder. A permit may be modified, suspended or revoked if the valet parking operation is not conducted in accordance with applicable law and these rules and regulations or if the Valet Parking Zone is not being used for a valet parking operation for all or a portion of the approved time periods. .

2.4.2 Definitions

The following terms shall have the following meanings in this Article 15-2.4:

Department for purposes of this document is Traffic and Parking

Valet Parking Permit means the permit issued by the Department to the Valet Permit holder allowing it to conduct a valet parking operation in an approved Valet Parking Zone.

Valet Permit Holder means the establishment (restaurant, hotel, complex or hospital) holding a Valet Parking Permit and offering valet parking services to its patrons or visitors.

Valet Parking Operator means the company/entity that is engaged by the Valet Permit holder to operate the valet parking service.

Section 2.4.3 General Provisions

Valet parking shall be the parking of a vehicle in an approved Valet Parking Zone for the time periods listed in Section 2.2 below. Vehicles that are valet parked shall be transported to and parked at a designated off-street parking facility/area and shall not be parked in any other on-

street parking spaces. Any vehicle parked in violation of these rules and regulations shall be subject to the issuance of a parking citation and the Valet Permit Holder and/or the Valet Parking Operator shall be subject to the enforcement measures identified herein. The Department reserves the right to designate Valet Parking Zones or require that more than one establishment be served from a single Valet Parking Zone based upon local conditions such as traffic congestion, the demand for Valet Parking Zones or the overall impact of valet operations in a particular area.

2.4.4 Size and Location of Valet Parking Zones

The Department shall determine the size (measured in linear feet and/or designated space) and location of a Valet Parking Zone taking into account factors including but not limited to the seating capacity of the Valet Permit Holder, the nature of its business, the hours of the valet service operation, and the proximity of the Valet Permit Holder's business to the off-street parking facility/area. In considering the seating capacity of the Valet Permit Holder, as reflected in the fire occupancy permit or entertainment license or as visually inspected by the Department, the Department may use the following general guidelines to determine an appropriate size for the Valet Parking Zone:

100 or fewer seats – two (2) parking spaces

101-150 seats – three (3) parking spaces

151-200 seats – four (4) parking spaces

2.4.5 Length of Time Vehicle May Remain in Valet Parking Zone

Hotels/Complex: Vehicles may remain in the Valet Parking Zone of a hotel holding a Valet Parking Permit during the hours of valet parking operation listed on the permit as long as necessary, while engaged in the receiving or discharging of passengers or loading or unloading of baggage; however, hotels shall make every effort to keep a minimum of one space within the Valet Parking Zone open at all times.

Restaurants: Vehicles may remain in the Valet Parking Zone of a restaurant holding a Valet Parking Permit during the hours of valet parking operation listed on the permit for not more than fifteen (15) minutes continuously, while engaged in the receiving or discharging of passengers.

Hospitals: Vehicles may remain in the Valet Parking Zone of a hospital holding a Valet Parking Permit during the hours of valet parking listed on the permit for as long as necessary, while engaged in the receiving or discharging of passengers.

Section 2.4.6 Term and Public Comment

Valet Parking Permits shall be issued to establishments for the period July 1 through June 30. Special or one-day permits may be issued as provided in Section 10.0 below. All permits shall expire on June 30 of each year and must be renewed annually. The Traffic and Parking Department shall provide notice to the applicable City Councilor on all initial applications. All Applications must be approved by the Traffic Commission public meeting. Notice of the meeting shall be posted in accordance with Public Meeting Law.

Section 2.4.7 Coordination with other City Agencies and Departments

The Department shall coordinate its review and enforcement of valet parking operations with other City of Somerville Departments including the SPD and the Licensing Board for the City of Somerville by exchanging and sharing information with these agencies.

Section 2.4.8 Application for Valet Parking

An application for a Valet Parking Permit shall be submitted on a form issued by the Traffic and Parking Department. Applications must be submitted by the establishment that will be serviced by the valet parking operation. Permits must be renewed annually and updated information must be submitted with a renewal application. The application form shall request the following information.

2.4.8.1 The name, address, and telephone, email and fax numbers of the establishment requesting a Valet Parking Zone.

2.4.8.2 The name and telephone, email and fax numbers, including the daytime and nighttime numbers of the owner or general manager of the establishment.

2.4.8.3 The name, address, email and telephone phone numbers of the Valet Parking Operator that will be operating the valet service, and the daytime and nighttime telephone number and cell

phone numbers of the owner or general manager of the Valet Parking Operator. The cell phone number of the owner or general manager of the Valet Parking Operator shall be accessible twenty-four (24) hours a day. If a Valet Parking Operator will not be used, the same information shall be provided for the Valet Permit Holder.

2.4.8.4 The location and number of linear feet /spaces and/or meter numbers requested for the Valet Parking Zone.

2.4.8.5 The days and actual hours of operation requested, the estimated number of vehicles that will be valet parked, and the estimated number of valet attendants that will be present during each of the days and times requested.

2.4.8.6 A letter from the owner and/or operator of an off-street parking facility/area stating an agreement exists between the off-street location and the Valet Parking Operator or Valet Permit Holder for valet parking of vehicles. The letter must state the following information: the location of the facility/area; the total number of parking spaces in the facility/area; and the total number of parking spaces that will be available for valet parked vehicles from the Valet Permit Holder.

2.4.8.7 A plan or map and a description depicting the proposed route that valet parking attendants will use to and from the off-street parking facility/area shall be submitted.

2.4.8.8 Contracts, written agreements or leases related to the use of an off-street parking facility/area during the term of a current permit shall be submitted for all renewal applications.

Section 2.4.9 Evaluation Procedures and Criteria

Upon receipt of a completed application for an initial permit, the Department shall provide a copy to the Somerville Police Department where the proposed valet operation will be located. Review, comments and hearings shall be as provided in Section 3.0. All applications for an initial permit or renewal of an existing permit are subject to an evaluation by the Department in order to ensure that there is safe and adequate vehicular access to and from the Valet Parking Zone and that the vehicular traffic expected to be generated by the valet parking operation will not cause undue traffic congestion, block or impede the flow of traffic or pose a public safety hazard by delaying or preventing access in or throughout the area of the Valet Parking Zone. The evaluation shall be completed promptly but no later than sixty (60) days following receipt of a complete application. The evaluation shall consider the following:

2.4.9.1 The existing parking regulations on the block and in the general vicinity of the Valet Parking Zone.

2.4.9.2 The anticipated number of vehicles that are proposed to be accommodated at the Valet Parking Zone during each of the operating periods listed in Section 5.5 and the corresponding number of valet parking attendants that are proposed to be used during each such period.

2.4.9.3 The width and configuration of the streets at and in the general vicinity of the Valet Parking Zone.

2.4.9.4 The turning vehicle radius movements required for vehicles that will enter and leave the Valet Parking Zone.

2.4.9.5 The existing vehicular volumes on the streets and the on-street parking demand at and in the general vicinity of the requested zone during the time periods listed for the operation.

2.4.9.6 Pedestrian volumes at and in the general vicinity of the Valet Parking Zone.

2.4.9.7 An assessment of the proposed route to and from the off-street parking facility/area under the following criteria: how direct is the route and whether the distance between the establishment and the parking facility/area is within a reasonable walking distance for valet parking attendants.

2.4.9.8 The overall demand for Valet Parking Zones at and in the general vicinity of the requested location during the operating periods listed on the valet parking application.

2.4.9.9 The record and history of valet parking operations for the Valet Parking Operator that will be providing the service (if a Valet Parking Operator will not be used, the same information as to the Valet Permit Holder).

Upon completion of the evaluation the application shall be presented to the Traffic Commission for approval.

Section 2.5.0 Determination and Issuance Procedures and Criteria

The Traffic Commission shall determine whether and to what extent an application should be approved based upon the Department Rules and Regulations and its professional opinion. The Traffic Commission may accept and consider comments from elected officials, residents and other city agencies and departments. Under the provisions of these rules and regulations, an application may be approved in whole or in part, it may be denied, or it may be approved subject to specific additional conditions related to location and use characteristics such as the number of linear feet, the exact location of the Valet Parking Zone, the estimated number of vehicles that will be valet parked during each operating period listed in Section 5.5, the required number of valet attendants during each such operating period and use of a single Valet Parking Zone by more than one establishment. An approval notification shall be the Valet Parking Permit and it shall include the information on the permit application, the information set forth below and such additional information as the Department may determine. If an application is denied in whole or in part, or if it is approved subject to specific additional conditions, the grounds for such action shall be in writing and become part of the permit. The permit shall include the following:

2.5.1 The term of the permit, the exact location and the number of linear feet of the Valet Parking Zone, the approved days and hours of operation, the minimum number of valet attendants required during each of the approved operating periods, the name and address of the designated off-street parking facility/area and the permit fee. Valet parking shall be allowed only during the approved days and hours of operation; and if the Valet Parking Zone is not being used for a valet parking operation for all or part of the approved time periods, the permit may be modified or revoked. The Valet Permit Holder or Valet Parking Operator may request permission to place signage in the Valet Parking Zone during the hours listed on the permit, but only Department-approved signage shall be placed on the street.

2.5.2 The requirement that all vehicles shall be parked at the off-street parking facility/area listed on the permit and not parked in the Valet Parking Zone for longer than the allowed time limit or in any other on-street parking space.

2.5.3 That the operation of any valet parking operation is the responsibility of the Valet Permit Holder, and a statement that the Valet Permit Holder agrees to comply with the terms and conditions on the permit, these rules and regulations and other regulations of the Department.

2.5.4 That the permit shall be available for inspection at the establishment at all times.

2.5.5 Copies of new permits shall be provided to the Somerville Police Department District where the proposed valet operation will be located, the applicable Councilor or and other city agencies including the Licensing Board for the City of Somerville. An inventory of new, suspended and/or revoked permits shall be provided upon request to the Department.

2.5.6 The permit shall be issued upon approval and payment of the applicable fees. Once approved, the Department shall install valet signage. Unless a permit is renewed, the valet parking signage will be removed upon expiration of the current permit.

2.5.7 The Traffic Commission may determine that a Valet Parking Zone should be designated or shared by more than one establishment. In this case, the Department shall list all of the establishments sharing the Valet Parking Zone as the Valet Permit Holder(s) on the Valet Parking Permit.

Section 2.6.0 Fees

The fees for the use of the curb space and signage are established by way of the Traffic Commission. Fees are as follows: \$40 per linear foot or \$800.00/marked space of curb space per year for each day of the week and \$150 per sign for a five-year period. The payment of the fees shall be on a schedule as determined by the Department.

Section 2.7.0 Enforcement

2.7.1 The Department shall maintain a complete file for each Valet Parking Permit issued. The files shall include all information relevant to the Valet Parking Permit including application(s), approval letters, complaints, correspondence, reports, Valet Parking Operator information, and other related documents and information.

2.7.2 Conducting or operating a valet parking operation without applying for and receiving a Valet Parking Permit issued hereunder shall subject the establishment serviced by the valet parking operation and the valet operator to a fine not exceeding three hundred dollars (\$300). Each day on which a violation exists shall constitute a separate offense.

2.7.3 Valet Parking Permits may be suspended or revoked as set forth below, provided, however, that where a violation is a threat to public safety or welfare, a permit may be suspended or revoked prior to initiating the procedures below.

2.7.4 Traffic and Parking Officers and Somerville Police Officers are authorized to enforce these regulations. The Department shall maintain within the file referenced in Section 9.1 all valet parking complaints from elected officials, residents and other city agencies and Somerville Police Department Incident Reports.

2.7.5 Complaints may be taken in person, by telephone or in writing. A complaint form, as determined by the Department, shall be used whenever practical. Copies of complaints and incident reports received by the Department shall be provided to the Valet Permit Holder and the Valet Parking Operator.

2.7.5.1 Valet vehicles that are parked in violation of these rules and regulations may be subject to issuance of a parking citation. A licensed premise violation may also be issued to a Valet Permit Holder licensed by the Licensing Board for the City of Somerville for any violation of these rules and regulations.

2.7.6 The Department may issue a written warning to a Valet Permit Holder on the basis of any complaint, compliance inspection, written violation, parking citation, or incident report. A written warning shall identify the nature of the problem and may state corrective action. Copies of written warnings shall also be provided to the Valet Parking Operator associated with the particular Valet Permit Holder receiving the warning.

2.7.7 The Department may undertake compliance inspections from time to time and it may undertake investigations based upon complaints, incident reports or violation notices. On the basis of inspections or investigations the Department may issue a written warning to a Valet Permit Holder, as described in Section 9.6.

2.7.8 Following the issuance of at least one written warning to a Valet Permit Holder, the Department may schedule a hearing if it receives an additional complaint or incident report or if a compliance inspection reveals a problem. The purpose of the hearing will be to receive additional information and to determine if additional enforcement measures are warranted. The Valet Permit Holder and Valet Parking Operator shall be provided prior written notice of the hearing and both shall be required to attend. The Valet Permit Holder and/or the Valet Parking Operator may present information at the hearing. Following a hearing, the Department shall issue the Traffic Commission's determination as to what, if any, additional enforcement measures to take. Such measures may include an additional written warning or a modification, suspension or revocation of the permit. The Department may also schedule a hearing for any of the following purposes: to hear applications for new Valet Parking Permits; to hear requests from an existing Valet Permit Holder to increase or decrease the days or hours of its valet parking operation; requests from existing Valet Permit Holders to decrease or increase the size of the Valet Parking Zone; or to address complaints or violations occurring after written warnings are sent out and that the Department determines warrant immediate attention.

2.7.9 Actions involving the modification, suspension or revocation of a Valet Parking Permit shall be based on a number of factors including the number of violations, the number of occasions on which the violations occurred, or the severity of an incident resulting in a violation. A first suspension shall be for a period of not more than five (5) days and a second suspension for a period of not more than ten (10) days following the second suspension, the Traffic Commission may revoke the Valet Parking Permit.

2.7.10 Copies of written warnings, suspensions and revocations issued by the Department under this section shall be provided to other city agencies including the Somerville Police Department and the Licensing Board for the City of Somerville

2.7.11 Parking citations received as a result of a violation of these rules and regulations are the responsibility of the Valet Permit Holder. Parking citations shall be processed and may be appealed pursuant to the procedures of the Department Rules and Regulations.

Section 2.8.0 Special or One-Day Permits

The Department may, in its discretion, issue special or one-day permits for valet parking. Such permits shall, as determined by the Traffic Commission, comply with all of the provisions hereunder, and applications for such permits shall be submitted no later than five (5) days prior

to the date of the event. The Department shall consider requests less than five (5) days prior to the event only in extraordinary situations.

Section 2.9.0 Severability

If any section or part hereof is held invalid, the remainder shall not be affected by such holding.

Section 2.10.0 Public Safety

In the interest of public safety, each Valet Parking Operator operating within the City of Somerville must annually, on or before July 1 of each year, provide a copy of its company's policy regarding handling intoxicated drivers to the Department.

Section 2.11.0 Identifying Jackets for Valet Parkers

No Valet Parking Operator who is engaged in providing valet services, including but not limited to receiving or discharging passengers or loading or unloading baggage from a vehicle, making arrangements to remove the vehicle to a designated off-street parking facility, parking a vehicle, or otherwise in control of a vehicle subject to valet parking requirements, may engage in such activities unless the Valet Parking Operator is wearing a jacket or shirt clearly marked "VALET" across the back in reflective lettering that shall be highly contrasting with the background/field/screen (i.e. dark colored reflective lettering on light-colored background or light-colored reflective lettering on dark-colored background); each individual letter of the word "VALET" shall be no smaller than three inches (3") in height. The front of the jacket or shirt worn by the Valet Parking Operator shall include the name of the person, business, establishment, or corporation granted a Valet Parking Permit. Compliance with these sections shall require the jacket or shirt required in this section to be the outermost garments worn by the Valet Parking Operator.

Section 2.12.0 Effective Date

These amendments to the Department Rules and Regulations shall take effect on November 19, 2014

Section 15-3 Schedule of Fees

The Traffic Commission hereby adopts the following schedule of permits granted in connection with permit parking.

<u>Permit Type</u>	<u>Fee</u>
Residential Permit	\$50*
Replacement Residential Permit (1 st time)	\$25*
Replacement Residential Permit (2 nd time)	\$50*
2 Day Visitor Permit	\$30 each*
Replacement Visitor Permit (1 st time)	\$25 each*
Replacement Visitor Permit (2 nd time)	\$50 each*
3 Day Visitor Permit	\$50 each
Special Visitor Permit (3-7 days)	\$35
Extended Visitor Permit (8-30 days)	\$50
Commercial Vehicle Permit	\$100/yearly
Non-Commercial Permit	\$25
Commercial Exempt School Vans	\$50 yearly
Citywide Placard/Health Care Professional	\$50 - 12 months
Citywide Placard/Home Maker	\$40 - 12 months
Military	\$20
Religious Organization	\$50 - 12 months
Medical	\$50 - 12 months
Business Permit (On Street)	\$300 yearly
Business Permit (Off Street)	\$100 per month
School Department/Teacher Permit	\$15
Rental Car Permits (up to 1 month)	\$50/month
Contractors Permits (per vehicle, up to 1 month)	\$50
Landlord Permits (living outside of Somerville)	\$100 yearly
Landlord Permits 10+ properties (living outside of Somerville)	\$200 yearly
Realtor Permits (8am-9pm)	\$100 yearly
Temporary "No Parking" Signs	\$5 each
Moving Van Permit	\$50/day
Moving Container/Portable On Demand Storage (POD)	\$50/day
Party/One Time Event Permits	\$1 per permit/per day
Valet Parking Permit	\$40/linear ft or \$800/space for each day of the week;
Miscellaneous Business Permit	\$150/sign every 5 yrs \$400/year
Auxiliary Landlord Permit	\$100
Auxiliary Landlord Permit (10+ properties)	\$200
Artist Permit	\$75 yearly

*Denotes that there is NO CHARGE for persons with disabilities or 65+

Section 15-4 Parking Meter Fees

The fee for parking at a parking meter under the jurisdiction of the Traffic Commission shall be twenty-five cents per 10 minutes/\$1.50 per hour.

Section 15-5 Parking Meter Bagging Fees

The fee for having a meter placed out of service for a specific event (“meter bagging”) shall be \$35 per meter per day plus a \$35 bagging fee. Requests for meter bagging shall be placed no less than 48 hours in advance and shall be accompanied with a check in the amount of the required fee. Meter bagging shall be automatically granted upon request, unless the Parking Clerk determines in writing that the request shall result in manifest injustice or conflicts with the spirit of the Traffic and Parking Regulations. All requests for meter bagging shall be made on a form prescribed by the Parking Clerk.

Section 15-6 Violations

If a person uses a permit issued under this article in violation of these regulations, the permit may be suspended, revoked, or modified, in whole or in part, only after the holder of the permit has been notified in writing and has been given an opportunity to be heard.

ARTICLE XVI APPEALS AND HEARING

Section 16-1 Hearings for Permits

An appeal to the Traffic Commission may be taken by any person aggrieved by reason of the inability to obtain a permit or permit renewal from the Parking Clerk. Any appeal shall be taken within thirty days from the date of the decision which is being appealed. The petitioner shall file a notice of appeal specifying the grounds thereof, with the Parking Clerk. The Parking Clerk shall forthwith transmit to the Traffic Commission all documents and papers constituting the record of the case in which the appeal is taken. The Traffic Commission shall hold a hearing on any appeal at the next regularly scheduled meeting. Written notice of the date, time, and place of the hearing shall be sent by first-class mail to the petitioner. The hearing shall be informal, the rules of evidence shall not apply, and the decision of the Traffic Commission shall be final.

ARTICLE XVII MOTORIZED SCOOTERS

SECTION 17-1 AUTHORITY

The Traffic Commission hereby adopts the following motorized scooter rules and regulations

SECTION 17-2 DEFINITIONS

Motorized Scooter – any two wheeled device that has handlebars, designed to be stood or sat upon by the operator, powered by electric or “gasoline powered” motor that is capable of propelling the device with or without human propulsion, and which is not a “motor vehicle” or “motorized bicycle” as defined in Chapter 90 of the Massachusetts General Laws, except that a “Segway” personal mobility assistance device shall not be considered a motorized scooter. However, any personal assistance device that is intended for use and operated by a person with a disability shall be exempt from the provisions of this regulation.

SECTION 17-3 REGULATIONS

- a) A person under the age of 16 may not operate a motorized scooter upon any way, street, highway, boulevard, avenue, court, lane, alley, square, and place under the control of the City of Somerville. Operator must possess a valid driver’s license or learner’s permit.
- b) A person may not operate a motorized scooter upon any way, street, highway, boulevard, avenue, court, lane, alley, square, and place under the control of the City of Somerville at a speed in excess of twenty-five miles per hour.
- c) A person may not operate a motorized scooter upon any way, street, highway, boulevard, avenue, court, lane, alley, square, and place under the control of the City of Somerville in a careless, reckless, or negligent manner so as to endanger the life, safety of any person or the property of any other person.
- d) A person may not operate a motorized scooter upon any way, street, highway, boulevard, avenue, court, lane, alley, square, and place under the control of the City of Somerville while under the influence of alcohol as set forth in G.L. c. 90 s. 24.
- e) A person may not operate a motorized scooter upon any way, street, highway, boulevard, avenue, court, lane, alley, square, and place under the control of the City of Somerville in violation of any federal, state, or local traffic and parking laws, ordinances, rules, or regulations. Operator must obey all Mass traffic laws except that the operator may pass a motor vehicle on the right only when traveling in the same direction as the motor vehicle and the operator must give hand signals for stopping or turning and must yield the right of way to any motor vehicle making a right-hand turn.
- f) Every person operating a motorized scooter shall operate such motorized scooter upon any way, street, highway, boulevard, avenue, court, lane, alley, square, and place under the control of the City of Somerville in designated bicycle lanes, where such lanes are provided within ten (10) yards of the location at which such motorized scooter is operated.
- g) Every person operating a motorized scooter upon any way, street, highway, boulevard, avenue, court, lane, alley, square, and place under the control of the City of Somerville shall wear protective headgear conforming with standards governing bicycles.

- h) A person operating a motorized scooter upon any way, street, highway, boulevard, avenue, court, lane, alley, square, and place under the control of the City of Somerville may not permit any person to ride as a passenger on such scooter.
- i) A person may not operate a motorized scooter upon any way, street, highway, boulevard, avenue, court, lane, alley, square, and place under the control of the City of Somerville unless such motorized scooter is equipped with a braking system to enable the operator to bring the scooter traveling at a speed of fifteen miles per hour to a smooth safe stop within thirty feet on a dry, clean, hard level surface.
- j) A person may not operate a motorized scooter upon any way, street, highway, boulevard, avenue, court, lane, alley, square and place under the control of the City of Somerville during hours of darkness.
- k) A person may not operate a motorized scooter upon any way, street, highway, boulevard, avenue, court, lane, alley, square, and place under the control of the City of Somerville unless the handlebars are below shoulder height of the operator.
- l) A person operating a motorized scooter upon any way, street, highway, boulevard, avenue, court, lane, alley, square, and place under the control of the City of Somerville may not pass or overtake another motorized scooter traveling in the same direction.
- m) A person may not operate a motorized scooter in the following locations under the control of the City of Somerville:
 - i. any sidewalk, except as may be necessary to enter or leave adjacent property.
 - ii. on any way, street, highway, boulevard, avenue, court, lane, alley, square, and place under the City of Somerville prohibiting bicycles.
 - iii. any street, highway, boulevard, avenue, court, lane, alley, square, and place under the control of the City of Somerville with a posted speed limit greater than 30 m.p.h.
- n) A person who is charged with violating this regulation shall give their name and address to the enforcing authority.
- o) A person who violates this section or knowingly permits another to violate this section shall be punished by a fine as set forth in Section 1-11(b) of the Somerville Code of Ordinances in the manner provided by G.L. c. 40 § 21D. The police department is the enforcing authority for violations of this section. The fine will be not more than \$25 for the first offense, \$25-\$50 for the second offense, and \$50-\$100 for subsequent offenses.
to another fine. The fine will be \$50 per violation.
- p) This section shall not be construed to impair any common law or statutory cause of action or other legal remedy available to the City.

**ARTICLE XVIII
RED LIGHT VIDEO SURVEILLANCE ENFORCEMENT**

Section 18-1 Definitions

In this article:

"Department" shall mean the Police Department of the City of Somerville, Massachusetts

"Intersection" shall mean the place or area where two (2) or more streets intersect.

"Owner" shall mean the owner of a motor vehicle as shown on the motor vehicle registration records of the Massachusetts Registry of Motor Vehicles or the analogous department or agency of another state or country. The term "owner" includes (i) a lessee of a motor vehicle under a lease of six (6) months or more or (ii) the lessee of a motor vehicle rented or leased from a motor vehicle rental or leasing company, but does not include the motor vehicle rental or leasing company itself.

"Photographic traffic monitoring system" shall mean a system that:

- (a) Consists of a combination of multiple digital still cameras with a single synchronized time source and full motion video and vehicle sensor installed to work in conjunction with an electrically operated traffic control signal; and
- (b) Is capable of producing at least three (3) discreet images that depict the license plate attached to the rear of a motor vehicle, as well as an image of the operator of a motor vehicle, that is not operated in compliance with the instructions of the traffic control signal.

"Recorded image" shall mean an image recorded by a photographic traffic monitoring system that depicts the rear of a motor vehicle, or the operator of a motor vehicle, and is automatically recorded on a photograph or digital image.

"System location" shall mean the approach to an intersection toward which a photographic traffic monitoring system is directed and in operation.

"Traffic control signal" shall mean a traffic control device that displays alternating red, amber and green lights that direct traffic when to stop at or proceed through an intersection.

"Speed Traffic Monitoring System" means a system that:

- (a) Consists of a combination of multiple digital still cameras with a single synchronized time source and full motion video to work in conjunction with an electrically operated speed control device; and

- (b) Is capable of producing at least three discreet recorded images that depict the license plate attached to the rear of a motor vehicle that is not operated in compliance with the instructions of the traffic control signal.

Section 18-2 Imposition of civil penalty.

- (A) The Traffic Commission finds and determines that a vehicle that proceeds into an intersection when the traffic control signal for that vehicle's direction of travel is emitting a steady red signal damages the public by endangering vehicle operators and pedestrians alike, by decreasing the efficiency of traffic control and traffic flow efforts, and by increasing the number of serious accidents to which public safety agencies must respond at the expense of the taxpayers.
- (B) The owner of a motor vehicle is liable for a civil penalty if the vehicle proceeds into an intersection at a system location when the traffic control signal for that vehicle's direction of travel is emitting a steady red signal.
- (C) The civil penalty for Section 2(B) shall be set equal to Massachusetts General Law Chapter 89, Section 9. (Designation of highways as through ways; traffic control signs and devices); However, provided that for a third or subsequent offense in any 12-month period, the amount of the penalty shall be increased by \$100.
- (D) The Traffic Commission finds and determines that a vehicle that travels at speeds greater than are allowed under the law damages the public by endangering vehicle operators and pedestrians alike, by decreasing the ability of motorists and pedestrians to react in time in cases of emergency and or accident-avoidance efforts, and by increasing the number of serious accidents to which public safety agencies must respond at the expense of the taxpayers.
- (E) The owner of a motor vehicle is liable for a civil penalty if the vehicle is operated at a speed greater than allowed under the law.
- (F) The civil penalty for Section 2(E) shall be set equal to Massachusetts General Law Chapter 90, Section 17. (Speed limits); however, provided that for a third or subsequent offense in any 12-month period, the amount of the penalty shall be increased by \$100.
- (G) A Police administration fee of 25% of the total fee assessed shall be set aside in Traffic Enforcement and Education Revolving Fund as outlined in the Massachusetts General Laws, Chapter 44, § 53E.

Section 18-3 Enforcement; procedures.

- (A) The Department is responsible for the enforcement and administration of this article.
- (B) In order to impose a civil penalty under this article, the Department shall cause to be mailed a notice of violation to the owner of the motor vehicle liable for the civil penalty not later than the 40th day after the date the violation is alleged to have occurred to:

- (1) The owner's address as shown on the registration records of the Massachusetts Registry of Motor Vehicles; or
 - (2) If the vehicle is registered in another state or country, the owner's address as shown on the motor vehicle registration records of the department or agency of the other state or country analogous to the Massachusetts Registry of Motor Vehicles.
- (C) A notice of violation issued under this article shall contain the following:
1. A description of the violation alleged;
 2. The location of the intersection where the violation occurred;
 3. The date and time of the violation;
 4. The name and address of the owner of the vehicle involved in the violation;
 5. The registration number displayed on the license plate of the vehicle involved in the violation;
 6. A copy of a recorded image of the vehicle involved in the violation that depicts the registration number displayed on the license plate of that vehicle;
 7. The amount of the civil penalty to be imposed for the violation;
 8. The date by which the civil penalty must be paid;
 9. A statement that a recorded image is evidence in a proceeding for the imposition of a civil penalty;
 10. Information that informs the person named in the notice of violation:
 - a. Of the person's right to contest the imposition of the civil penalty against the person in an administrative adjudication;
 - b. Of the manner and time in which imposition of the civil penalty may be contested;
 - c. That failure to pay the civil penalty or to contest liability in a timely manner is an admission of liability and that failure to appear at an administrative adjudication hearing after having requested a hearing is an admission of liability; and
 - d. that failure to pay the civil penalty within the time allowed shall result in the imposition of a late-payment fee of twenty- five dollars (\$25.00).

11. A statement that, if at the time and place of the violation the vehicle was being operated by a person other than the owner, if the owner is a natural person, the owner may transfer liability for the violation to the person who was operating the vehicle at that time and place if the owner submits to the City by affidavit, on a form provided by the City, or under oath at an administrative adjudication hearing the name and current address of the person:

- a. Operating the vehicle at the time and place of the violation;
- b. Who was the lessee of the vehicle at the time of the violation, if the vehicle was rented or leased from a person in the business of renting or leasing motor vehicles at that time; or
- c. Who was the subsequent owner of the motor vehicle, if ownership of the vehicle was transferred by the owner before the time of the violation.

(D) A notice of violation under this article is presumed to have been received on the fifth day after the date the notice of violation is mailed.

(E) In lieu of issuing a notice of violation, the Department may mail a warning notice to the owner that, in addition to any other information contained in the warning notice, must contain the information required by subsection (C).

Section 18-4 Administrative Adjudication Hearing

(A) A person who receives a notice of violation under this article may contest the imposition of the civil penalty by requesting in writing an administrative adjudication of the civil penalty within twenty-one (21) calendar days after receipt of the notice of violation. Upon receipt of a timely request, the Department shall notify the person of the date and time of the hearing on the administrative adjudication. The administrative adjudication hearing shall be held before a hearing officer appointed by the Chief of Police.

(B) Failure to pay a civil penalty or to contest liability in a timely manner is an admission of liability in the full amount of the civil penalty stated in the notice of violation and constitutes a waiver of the right to appeal under Section 4(k)

(C) Failure to appear at an administrative adjudication hearing after having requested a hearing is an admission of liability for the full amount of the civil penalty assessed in the notice of violation and constitutes a waiver of the right to appeal under Section 4(K).

(D) A person who fails to pay a civil penalty within the time allowed by this article shall be additionally liable for a late-payment penalty in the amount of \$50.00.

(E) The civil penalty shall not be assessed if:

- (1) after a hearing, the hearing officer enters a finding of no liability; or
- (2) within the time prescribed in the notice of violation, the person against whom the civil penalty is to be assessed submits the proof described in Section 3(C)(11).

(F) A person who requests an administrative adjudication hearing or who requests and thereafter fails to appear at the time and place of the hearing is liable for administrative hearing costs in the amount of fifty dollars (\$50.00) in addition to the amount of the civil penalty assessed for the violation. A person who is found liable for a civil penalty shall pay the civil penalty and costs within ten (10) days of the hearing.

(G) In an administrative adjudication hearing, the issues must be proved at the hearing by a preponderance of the evidence. The reliability of the photographic traffic-control signal monitoring system used to produce the recorded image of the violation may be attested to in an administrative adjudication hearing by affidavit of an officer or employee of the City or the entity with which the City contracts to install or operate the system and who is responsible for inspecting and maintaining the system. An affidavit of an officer or employee of the City that alleges a violation based on an inspection of the pertinent recorded image, is admissible in a proceeding under this article, is evidence of the facts contained in the affidavit, and is prima facie evidence of the violation alleged in the notice of violation.

(H) It shall be an affirmative defense to liability under this article, to be proven by a preponderance of the evidence, that:

- (1) The traffic-control signal was not in proper position and sufficiently legible to an ordinarily observant person;
- (2) The operator of the motor vehicle was acting in compliance with the lawful order or direction of a police officer;
- (3) The operator of the motor vehicle violated the instructions of the traffic-control signal so as to yield the right-of-way to an immediately approaching authorized emergency vehicle;
- (4) The motor vehicle was being operated as an authorized emergency vehicle under Chapter 89, Section 7B, "Operation of emergency vehicles" of the Massachusetts General Laws and that the operator was acting in compliance with that chapter;
- (5) The motor vehicle was a stolen vehicle and being operated by a person other than the owner of the vehicle without the effective consent of the owner;
- (6) The license plate depicted in the recorded image of the violation was a stolen plate and being displayed on a motor vehicle other than the motor vehicle for which the plate had been issued;

(7) If the owner of the vehicle is a natural person and a person other than the owner of the vehicle was operating the vehicle and within the time prescribed in the notice of violation, the person against whom the civil penalty is to be assessed submits the proof described in Sec. 3(C)(11); or

(8) The presence of ice, snow, unusual amounts of rain or other unusually hazardous road conditions existed that would make compliance with this article more dangerous under the circumstances than non-compliance.

(I) To demonstrate that at the time of the violation the motor vehicle was a stolen vehicle or the license plate displayed on the motor vehicle was a stolen plate, the owner must submit proof acceptable to the hearing officer that the theft of the vehicle or license plate had been timely reported to the appropriate law enforcement agency.

(J) Notwithstanding anything in this article to the contrary, a person who fails to pay the amount of a civil penalty or to contest liability in a timely manner is entitled to an administrative adjudication hearing on the violation if:

(1) The person files an affidavit with the hearing officer stating the date on which the person received the notice of violation that was mailed to the person; and

(2) Within the same period required by Section 3(C)(10)(b) for a hearing to be timely requested but measured from the date the mailed notice was received as stated in the affidavit filed under Subsection (I), the person requests an administrative adjudication hearing.

(K) A person who is found liable after an administrative adjudication hearing may appeal that finding of liability to the Somerville District Court by filing a notice of appeal with the clerk of the Somerville District Court. The notice of appeal must be filed not later than the 31st day after the date on which the administrative adjudication hearing officer entered the finding of liability and shall be accompanied by the payment of any filing fee as determined by the court.

Section 18-5 Effect of liability; exclusion of civil remedy; enforcement.

(A) The imposition of a civil penalty under this chapter is not a conviction and may not be considered a conviction for any purpose.

(B) The Department may not impose a civil penalty under this article on the owner of a motor vehicle if the operator of the vehicle was arrested or was issued a citation and notice to appear by a police officer for a violation of Chapter 89, Section 9 of the Massachusetts General Laws which is also recorded by the traffic-control signal monitoring system.

(C) The City Solicitor is authorized to take appropriate legal action, including but not limited to filing suit, to enforce collection of a civil penalty assessed under this article.

(D) All fines issued under these sections may be recorded by a non-criminal disposition procedure promulgated in G. L. Chapter 40, Section 21D, which procedures are incorporated herein by reference; provided, however that if a person in violation fails to follow the procedures and requirements of G. L. Chapter 40, Section 21D, then the fine or fines shall be recovered by indictment or by complaint pursuant to G. L. Chapter 40, Section 21D.

Section 18-6 Severability.

If any person or subsection of this section shall be held to be invalid by a court of competent jurisdiction, then such person or subsection shall be considered separately and apart from the remaining provisions or subsections of this section, which shall remain in full force and effect.

APPENDIX A PERTINENT STATUTES

Chapter	Section	Provision
40	21 s.s. 14	Regulate parking of private ways
40	21 s.s. 16	Supt. Of streets may tow vehicles
40	22	Municipalities may regulate traffic
40	22A	And install parking meters
40	22B	And use meter funds to purchase off-street parking areas
40	22C	And install meters in parking areas
40	22D	Municipalities may tow illegally parked vehicles
81	19	Town has police jurisdiction over State highway
85	1	Municipalities to erect directional signs
85	2	Authority and duties of the Department
85	2A	Additional authority (Department may tow vehicles interfering with snow recall)
85	2B	Additional authority (may make special regulations for express State Highways)
85	2C	Additional authority (towing of vehicles on State Highways)
85	10A	Municipalities may designate coasting streets
85	11A	Registration of bicycles
85	21A	Municipalities may erect school warning signs
85	30	Heavy vehicles may be regulated – certain conditions
85	34	Protection of bridges
85	35	Liability for damage to bridges
85	36	Dropping of leaking loads
89	1	Keep to the right

89	2	Pass to the left
89	4	Keep to the right when view is obstructed
89	4A	Drive in single lane
89	4B	Drive in right lane when available
89	7	Certain emergency vehicles have right of way
89	7A	Vehicles near fire apparatus on fires
89	8	Right-of-way law
89	9	Through ways
90	17	Speed limits
90	18	Special regulations
90	18A	Pedestrian control
90	20A	Violation of parking rules (penalty)
90	20A	Municipalities may set parking fines
90	20C	Excessive parking notices
90	20D	Removing parking notice (penalty)
233	79F	Proof of existence of public way
270	16	Disposal of garbage, etc. on a highway
397	None	Establishing Traffic Commission

TEXT OF RELEVANT STATUTES:

MGL Ch. 85, §1Direction signs.

Except as otherwise provided in section two, every city and town shall erect and maintain on the ways therein, except state highways and ways under the control of the metropolitan district commission, at such places as are convenient for the direction of travelers and at forks or intersections of ways which lead to adjoining cities or towns, direction signs, upon which shall be stated the name of the city, town or place to which each such way leads, and the distance to the same.

MGL Ch. 85, §2Traffic signs or devices; rules and regulations.

The department of highways, in this chapter called the department, shall erect and maintain on state highways and on ways leading thereto and therefrom, and on all main highways between cities and towns, such direction signs, warning signs or lights, curb, street or other traffic markings, mechanical traffic signal systems, traffic devices, or parking meters as it may deem necessary for promoting the public safety and convenience and shall likewise install and maintain in accordance with the department's current manual on uniform traffic control devices, such curb, highways, street or other traffic markings as conditions may require or as may be necessary to carry out the provisions of other statutes pertaining to highway markings. The department may, from time to time, make, alter, rescind or add to rules and regulations relative to such signs, lights, signal systems, traffic devices, parking meters and markings, and may issue rules and regulations to direct, govern and restrict the movements of vehicles on all state highways and to carry out the purposes of section nine of chapter eighty-nine on highways, including state highways, which are designated thereunder by the department as through ways, with penalties for the violation thereof not exceeding twenty dollars for each offense. No such rule or regulation shall prohibit the use of passenger or station wagon type motor vehicles whose gross weight is less than five thousand pounds and which are registered for commercial use, on ways, parkways or boulevards where noncommercial passenger-type vehicles are permitted to operate. No such signs, lights, signal systems, traffic devices, parking meters or markings shall be erected or maintained on any state highway by any authority other than the department except with its written approval as to location, shape, size and color thereof, and except during such

time as said approval is in effect. The department may, after notice, revoke any approval granted under this section. Except as otherwise provided in section two E, any rule, regulation, order, Regulation or by-law which excludes motor vehicles from state highways shall be invalid and of no effect. Except as hereinafter provided, any rule, regulation, order, Regulation or by-law of a city of town hereafter made or promulgated relative to or in connection with the erection or maintenance of signs, traffic control signals, traffic devices, school zones, parking meters, or markings on any way within its control shall take effect without department approval provided such of signs, traffic control signals, traffic devices, school zones, parking meters, or markings are in conformance with the department's current manual on uniform traffic control devices and the department's sample regulations for a standard municipal traffic code; provided, however, that such rule, regulation, order, Regulation or by-law shall not take effect until approved in writing by the department, or be effective after such approval is revoked, if made or promulgated relative to or in connection with the following: (1) any way at its intersection or junction with a state highway; (2) any project which is or was federally aided, in whole or in part; (3) any traffic control signal or flasher in any city or town which does not employ a registered professional engineer in the commonwealth to design, redesign or change the timing and sequence of signal or flasher; (4) any sign excluding heavy commercial vehicles; (5) any school zone establishment or signing in relation to which the city or town intends to seek reimbursement from the commonwealth; (6) any one-way street sign not placed at an intersection of public ways; (7) any rule, regulation, order, Regulation or by-law of a city or town which when made or promulgated would exclude motor vehicle travel on any existing way which connects one city or town with another, unless such rule, regulation, order, Regulation or by-law was promulgated in compliance with the following: (a) the rule-making body of the city or town initiating such rule, regulation, order, Regulation or by-law gives written notice of such action to the chief executive officer of the abutting city, town or county into which the said way extends, and (b) a public hearing is held by the city, town, or county initiating such alteration, relocation, or discontinuance, public notice of which must be published for each of the two weeks preceding such hearing in a newspaper of general circulation in the abutting city or town into which the said way extends, and (c) after concurrence in writing by the chief executive officer of the abutting city or town into which the said way extends or his designee. Notwithstanding the foregoing, speed control signs may be established only in accordance with the provisions of section eighteen of chapter ninety. If any city or town installs and maintains any of the aforesaid traffic control devices without either requesting or obtaining the required approval or after being notified of such disapproval, or in noncompliance with said manual, the department shall withhold or withdraw the unexpended balance of any funds assigned to the said city or town under the provisions of section thirty-four of chapter ninety or sections twenty-five and twenty-six of chapter eighty-one. Any traffic control device which has not been erected or maintained in accordance with the foregoing provisions may be removed by or under the direction of the department and by stored by the department until claimed by the owner or, if not claimed within sixty days after written notice to said owner, may be disposed of at the discretion of the department. Color and arrow indications of traffic control signals shall have the commands ascribed to them in said manual. The use of the flashing white walk pedestrian signal indication, as defined in the official standards of the department, is prohibited. The superior court shall have jurisdiction in equity to enforce the provisions of this section and section one, and also sections one and four of chapter eighty-nine and any rule or regulation made thereunder or to enjoin the violation thereof. The provisions of this section shall not apply to the installation by any city or

town, on any way within its boundary, of signs warning motorists of the presence of blind, deaf or otherwise handicapped children in the vicinity.

MGL Ch. 85, §2A. Snow and ice control operations; removal of vehicles.

The department, for the purpose of ensuring the free flow of traffic or for the purpose of snow and ice control operations on a state highway, may, by its own employees or with such other assistance as it may require, remove or cause to be removed to the nearest convenient place any vehicle interfering with such traffic or such operation. The department shall keep records of the registration number of each vehicle so removed and of the place to which it was removed.

MGL Ch. 85, §2B. Limited access and express state highways; regulation of use.

The department for purpose of promoting public safety upon limited access and express state highways, may from time to time make, alter, rescind or add to regulations to exclude, govern and restrict the use of such state highways by horse-drawn vehicles, bicycles, pedestrians, and vehicles determined by the department, because of their type or because of materials or products being transported, as unsafe for limited access and express state highways, bridges, tunnels or overhead highway structures, which regulations may provide penalties for the violation thereof not exceeding thirty-five dollars for each offense, excepting regulations prohibiting the transportation of unsafe materials or products, the penalties for violation of which shall not exceed five hundred dollars for each offense. The department for the purpose of promoting public safety and convenience during periods of commuter and holiday traffic, inclement weather conditions or construction activity, or for other good cause, may promulgate rules and regulations limiting the time and hours of travel of vehicles one hundred and two inches in width, semi-trailers of forty-eight feet in length when operating in semi-trailer unit and tandem units, as defined in section one of chapter ninety, on the National Network, as defined in section nineteen F of chapter ninety, and routes of reasonable access, as designated by the department under provisions of section nineteen G of chapter ninety, or any parts thereof, and such rules and regulations may provide penalties for the violation thereof not exceeding five hundred dollars for each offense.

The state police, may, during declared weather emergencies order all trucks off the roads.

MGL Ch. 90, §17. Speed limits.

No person operating a motor vehicle on any way shall run it at a rate of speed greater than is reasonable and proper, having regard to traffic and the use of the way and the safety of the public. Unless a way is otherwise posted in accordance with the provisions of section eighteen it shall be prima facie evidence of a rate of speed greater than is reasonable and proper as aforesaid (1) if a motor vehicle is operated on a divided highway outside a thickly settled or business district at a rate of speed exceeding fifty miles per hour for a distance of a quarter of a mile, or (2) on any other way outside a thickly settled or business district at a rate of speed exceeding forty miles per hour for a distance of a quarter of a mile, or (3) inside a thickly settled or business district at a rate of speed exceeding thirty miles per hour for a distance of one-eighth of a mile, or (4) within a school zone which may be established by a city or town as provided in section two of chapter eighty-five at a rate of speed exceeding twenty miles per hour. Operation of a motor vehicle in excess of fifteen miles per hour within one-tenth of a mile of a vehicle used in hawking or peddling merchandise and which displays flashing amber lights shall likewise be prima facie evidence of a rate of speed greater than is reasonable and proper. If a speed limit has

been duly established upon any way, in accordance with the provisions of said section, operation of a motor vehicle at a rate of speed in excess of such limit shall be prima facie evidence that such speed is greater than is reasonable and proper; but, notwithstanding such establishment of a speed limit, every person operating a motor vehicle shall decrease the speed of the same when a special hazard exists with respect to pedestrians or other traffic, or by reason of weather or highway conditions. Except on a limited access highway, no person shall operate a school bus at a rate of speed exceeding forty miles per hour, while actually engaged in carrying school children.

MGL Ch. 90, §18. Special regulations as to speed.

The city council, the transportation commission of the city of Boston, the board of selectmen, park commissioners, a traffic commission or traffic director or the department, on ways within their control, may make special regulations as to the speed of motor vehicles and may prohibit the use of such vehicles altogether on such ways; provided, however, that except in the case of a speed regulation no such special regulation shall be effective unless it shall have been published in one or more newspapers, if there be any, published in the town in which the way is situated, otherwise in one or more newspapers published in the county in which the town is situated; nor until after the department, and in the case of a speed regulation the department and the registrar, acting jointly, shall have certified in writing that such regulation is consistent with the public interests; provided, however, that nothing herein contained shall be construed as affecting the right of the metropolitan district commission or of the department of environmental management to make rules and regulations governing the use and operation of motor vehicles on lands, roadways and parkways under its care and control. No such rule or regulation shall prohibit the use of passenger or station wagon type motor vehicles whose gross weight is less than five thousand pounds and which are registered for commercial use on ways where noncommercial passenger type motor vehicles are permitted to operate. No such regulation shall be effective until there shall have been erected, upon the ways affected thereby and at such points as the department and the registrar, acting jointly, may designate, signs, conforming to the standards adopted by the department, setting forth the speed or other restrictions established by the regulation, and then only during the time such signs are in place. Any sign, purporting to establish a speed limit, which has not been erected in accordance with the foregoing provisions may be removed by or under the direction of the department.

Any person, corporation, firm or trust owning a private parking area or owning land on or abutting a private way, or any person, corporation, firm or trust controlling such land or parking area, with the written consent of the owner, may apply in writing to the city council, the traffic commission of a city or town having a traffic commission, the transportation commission of the city of Boston or the board of selectmen in any town in which the private way or parking area lies, to make special regulations as to the speed of motor vehicles and as the use of such vehicles upon the particular private way or parking area, and the city council with the approval of the mayor, the traffic commission of a city or town, the transportation commission of the city of Boston or the board of selectmen, as the case may be, may make such special regulations with respect to said private way or parking area to the same extent as to ways within their control and such special regulations shall not be subject to approval by the department or the registrar; provided, however, that any traffic signs, signals, markings or devices used to implement such special regulations shall conform in size, shape and color to the most current manual on uniform traffic control devices.

Applicant's Health Care Provider**

T & P Form 3 – Traffic Calming Request Form

T & P Form 5 – Private Way Parking Petition

APPENDIX C RELEVANT SECTIONS OF SOMERVILLE CODE

ARTICLE VII. TRAFFIC COMMISSION

Sec. 1. Established; composition; terms of appointment members.

There is hereby established in the City of Somerville, hereinafter referred to as the city, a traffic commission, consisting of the commissioner of public works, the chief of police or their designee, the chief engineer of the fire department or their designee, the chair of the committee on traffic and parking of the city council and one member of the general public of the city appointed by the mayor and confirmed by the city council. The member appointed by the mayor shall serve for a term coterminous with the mayor, or until the qualification of a successor.

Sec. 2 Chairman; compensation of members.

The commissioner of public works shall be chair of the traffic commission. The members of the traffic commission shall receive no compensation for their services as commissioner, but shall be reimbursed by the city for any expenses actually and necessarily incurred in the performance of their duties.

Sec. 3. Meetings; notice required.

Meetings of the traffic commission shall be held on the second Thursday of each month unless sooner necessitated for reasons of public safety, welfare or convenience, in which case a meeting may be called on motion of the chair. Notice of meetings shall be posted according to the provisions of Section twenty-three B of Chapter thirty-nine of the General Laws and shall be sent to all commission members, the mayor, the city council, and the planning director. All of said persons may attend commission meetings and present their views, but only commission members may vote.

Sec. 4 Appointment of certain positions.

Upon recommendation of the traffic commission the mayor, with the approval of the city council shall have the authority to create the position of director of traffic and parking and subordinate staff positions including parking control officers. The mayor shall, with the approval of the city council, make appointments to such positions and shall fix their compensation.

Sec. 5 Traffic director; qualifications, removal.

The traffic director shall be a traffic engineer, possessing the qualifications required for associate or full membership in the Institute of Traffic Engineers and their position shall not be subject to Chapter thirty-one of the General Laws. They may be removed for cause after a public hearing, upon a four-fifths vote of the entire city council.

Sec. 6 Board of traffic and parking – Established; composition; terms; compensation.

There is hereby established in the City of Somerville a board of traffic and parking, hereinafter referred to as the traffic board, consisting of three persons to be appointed as follows: one by the mayor for a term of one year, one by majority vote of the city council for a term of two years and one by vote of the first two members for a term of three years; provided, however, that if, after thirty days from the appointment of the first two members the third member has not

been agreed to, such member shall be appointed by the mayor, subject to their confirmation by the city council. Upon the expiration of the term of a member, their successor shall be appointed for a term of three years. Members shall be eligible for reappointment. No person holding public office in said city shall be eligible for appointment. A member shall not receive any compensation for their services, but shall be reimbursed for all reasonable expenses incurred by them in carrying out their duties. The chair of the traffic board shall be chosen by and from its membership.

Sec. 7. Same – Functions.

The traffic board shall carry out the functions prescribed in clause (b) of section three (section 8(b) of this article) and, in addition, shall be available to the traffic commission for advice and consultation with respect to all of its activities.

Sec. 8 Powers and duties.

The traffic commission shall have exclusive authority, except as otherwise provided in this Act, to take any and all of the following actions, if it determines that such actions serve the public safety, welfare or convenience. Subject to the provisions of Section two of Chapter eighty-five of the General Laws:

- (a) The traffic commission may adopt, alter or repeal rules and regulations, not inconsistent with General Law as modified by this Act, relative to vehicular and pedestrian traffic in the streets of the city, and to the movement, stopping, standing or parking of vehicles on, and their exclusion from, all or any streets, ways, highways, roads and parkways under the control of the city, including rules and regulations designating any way or part thereof under such control as a through way under and subject to the provisions of Section nine of Chapter eighty-nine of the General Laws. Any rule or regulation adopted under this clause, prohibiting the parking or standing of vehicles on the whole or any part or parts of one or more streets, ways, highways, roads or parkways under the control of the city, may provide that it shall not apply in such residential areas as shall be specified, and at such times as shall be prescribed, in such rule or regulation, to any motor vehicle registered under Chapter ninety of the General Laws as principally garaged in the city and owned or used by a person residing in such area, who, in the year in which such vehicle is parked or in the preceding December for such year, shall have given, by a writing executed in such form and detail as such rule or regulation shall prescribe, and filed with the chief of police, notice of intention to park in such area and shall display in a conspicuous place on such vehicle, while parked, such visible evidence of the giving of such notice as such rule or regulation shall prescribe; but neither the giving of such notice nor the issuance of visible evidence of the giving thereof shall be construed to assign any specific space to any person or vehicle. The traffic commission may, with the approval of the mayor and city council, prescribe a schedule of fines not exceeding fifteen dollars for each violation of parking regulations in the calendar year as authorized by Section twenty-C of Chapter ninety of the General Laws. All other violations of regulations adopted under the provisions of this Act, except as otherwise provided by statute, shall be subject to fines not to exceed fifty dollars for each offense as set forth in the regulations.

No adoption, alteration or repeal of a regulation shall take effect until public notice of the proposed action has been given, except with respect to such special rules or regulations as are declared by the traffic commission to be urgently required for the public safety or welfare or such as are of a temporary nature and are to be effective for a period of not more than three weeks. Public notice shall be given by publication in full of the proposed adoption, alteration or repeal not less than once in each of three successive weeks in one or more newspapers published or distributed in the city. The public notice shall include a statement of the effective date of the proposed action, which shall not be less than twenty-one days following the first of the three newspaper publications.

- (b) Upon the filing of petitions with the traffic board by not less than fifty registered voters of the city, relative to any rule or regulation proposed to be adopted, altered or repealed, and not yet in effect, the proposed action shall be suspended, and the traffic board shall hold a public hearing thereon within two weeks of the date the petitions were filed, and shall by majority vote approve or disapprove the proposed action within two weeks following the public hearing. Upon the filing of petitions with the traffic board by not less than fifty registered voters of the city, relative to any rule or regulation which has been adopted, altered or repealed for a period of at least thirty days, the traffic board shall hold a public hearing thereon within two weeks of the date the petitions were filed and shall, following such hearing, determine by majority vote whether to avoid the adoption, alteration or repeal of the rule or regulation.
- (c) The traffic commission may erect, make and maintain, or cause to be erected, made and maintained, traffic signs, signals, markings and other devices for the control of traffic and parking in the city and for informing and warning the public as to rules and regulations adopted under this act, subject, however, to Section two of Chapter eighty-five and to Sections eight and nine of Chapter eighty-nine of the General Laws.
- (d) The traffic commission may recommend to the city council the alteration, construction, erection, installation and maintenance of street lights.
- (e) The traffic commission, with the approval of the mayor, may retain the services of qualified consultants when such retention is deemed necessary or advisable.
- (f) The traffic commission may promulgate regulations that provide that any sergeant or officer of higher rank in the police department may cause to be removed to some convenient place by towing by an independent contractor any vehicle except a vehicle owned by the Commonwealth or a political subdivision thereof or by the United States or an instrumentality thereof or registered by a member of a foreign diplomatic corps or by a foreign consular officer who is not a citizen of the United States and bearing distinctive number plate otherwise conspicuously marked as so owned or registered, and except a vehicle owned by a disabled veteran or handicapped person and bearing a distinctive number place, which is parked or standing on any part of

any street, way, highway, road or parkway if in the calendar year in which such vehicle is so removed and in the preceding calendar year, five or more notices, in the aggregate, have been affixed to said vehicle, as provided in Section twenty C of Chapter ninety of the General Laws, and remain unpaid and the cost of such removal and of storage charges resulting therefrom, in accordance with the traffic regulations then in effect, shall be imposed on the owner of such vehicle. Any such vehicle so removed shall be held until all charges imposed for such removal and storage following the same have been paid and due notice has been received that the fines provided in such notices affixed to said vehicle have been paid or security for the payment thereof has been deposited. The police department shall promptly mail written notice to the registered owner of any such vehicle so removed, directed to the address furnished by the registry of motor vehicles or comparable agency of the state in which said vehicle is registered, stating the date on which such vehicle was removed, the location to which such vehicle has been removed, and a statement that such vehicle shall be released by the police on the payment of all fines, storage and towing charges due. Any such vehicle so removed shall be deemed to have been abandoned and may be disposed of in accordance with Section twenty-two C of said Chapter ninety if, within thirty days of the mailing of the notice to the registered owner as provided for herein, said owner has not paid all charges imposed for such removal and storage following the same and the fines provided in such notices affixed to said vehicle or security for the payment thereof has been deposited.

Nothing in this Act shall be construed to authorize the traffic commission to adopt, alter or repeal any rule or regulation excluding the trackless trolley vehicles or buses of a street railway or bus company from any way or part thereof in which said company has a location; or to modify or limit any power or authority of the metropolitan district commission or the departments of public works or public utilities of the Commonwealth; or to modify or limit any power or authority of the mayor, city council or of any board or head of a department with reference to the issuance of licenses or permits for the opening, using or occupying of streets and sidewalks for reasons not relating to traffic.

Sec. 9 Enforcement.

The planning director, the chief of police, the chief engineer of the fire department, the commissioner of public works, the city engineer, the city electrician and city solicitor shall be available to the traffic commission to advise on matters relating to their respective departments and shall be responsible for putting into effect the rules and regulations adopted by the traffic commission in so far as such rules and regulations relate to their respective departments. The traffic commission shall cooperate with the planning board and with such public carriers as may be authorized and licensed to render service within the city, on matters relating to traffic planning, and shall cooperate with the planning board on all matters that may relate to the need for, location, construction, erection and maintenance of public parking facilities or of private parking facilities for public use within the city. When it is necessary to coordinate with federal, state or other local agencies on matters of traffic movement and traffic planning, the traffic commission may serve as liaison for the city.

Sec. 10. Existing Regulations, orders, etc., to remain in effect.

All existing orders, Regulations, rules and regulations relating to the control of vehicular traffic, including those relating to the parking of vehicles on any streets, ways, highways, roads and parkways, under the control of the city, shall remain in full force and effect until superseded by rules and regulations adopted by the traffic commission pursuant to clause (a) of section three (section 8(a) of this article), and the adoption thereof shall not affect any act done, and right accrued, any penalty incurred or any suit, prosecution or proceeding pending at the time of such adoption.

Sec. 11 Revocation of Act after acceptance.

At any time after the expiration of two years from the date of acceptance of this Act, such acceptance may be revoked by a two-thirds vote of the city council, subject to a referendum which shall be held at the municipal election next succeeding each vote. Upon such revocation, all existing rules and regulations shall remain in full force and effect until superseded by orders, Regulations, rules or regulations adopted in accordance with the provisions of law then applicable to said city, and neither such revocation nor adoption of superseding orders, Regulations, rules or regulations shall affect any act done, and right accrued, any penalty incurred or any suit, prosecution or proceeding pending, prior to revocation or adoption.

Sec. 12 Effective date.

This Act shall take effect upon its acceptance by the City of Somerville.
